Subject: RE: Timeline for Local Suspense Problem

All – here’s my summary of my call with Andy Winn. Andy – please make amend / correct as necessary.
Thanks, Rodric

- Issue first surfaced at POL Finance Service Centre (FSC) on 6 February 2012, at the close of a Branch Trading period
- The Issue raised concerned the £9799.88 discrepancy at the Willen branch
- FSC might have proactively contacted SPM given the size of the discrepancy
- FSC investigated, saw that it looked wrong, and brought the account back to balance (i.e. £0) at no cost to the SPMR
- FSC would have monitored the Willen branch to see what happened the following month
- Over the next few weeks, as the rest of the Branch Trading data for the same period was processed, the other 13 branch anomalies were noted
- Those other branches’ accounts were brought to balance, again at no cost to the subpostmaster
- This was not perceived to be a significant issue given the small number of branches affected and the small sums involved
- On 6 February 2013, the Willen SPMR contacted POL National Business Support Centre (NBSC) to report the same discrepancy in his Branch Trading as the previous year

- NBSC passed this on to Fujitsu between 6 and 8 February 2013
- Fujitsu then notified FSC of the problem on 28 February 2013
- Fujitsu resolved B14 on 25 April 2013

Lesley – one of your other questions was for further information on the timeline here.

Andy has advised me that he has discussed timeline with Rodric today.

Rodric – you may already have shared that with Lesley, but if not please would be able to do so and copy me too.

Thanks, Rod

Subject: RE: Timeline for Local Suspense Problem

Lesley,

Call was raised to HSD at 4:51pm on 25th February from NBSC (ie POL's Service Desk). From what I can make out there was somebody called Ibrahim in NBSC who raised it. Perhaps NBSC can track it back from there?

Call log at Horizon Service Desk says:

```
=====
=
INCIDENT MANAGEMENT
Date/Time Raised: Feb 25 2013 4:51PM
Priority: C
Contact Name: Ibrahim at NBSC
Contact Phone: ██████████
Originator: XXXXXX@TFS01
Originator's reference: A2401368
Product Serial No:
Product Site: 011458
=====
=
```

Transfer Note: Transfer Group from 'POA-HSD IMT' to 'POA-FJ-PEAK'
:
The Branch as an unexplained discrepancy. They balanced and rolled trading period on 6 Feb, they have one stock unit AA and this was balanced with a loss of £39.57 which was transferred to local suspense however the figure that was cleared out from local suspense was much higher £9839.45.

I have carried out transaction logs for all transactions from date range 31 Jan to 06 Feb. Branch has submitted copies of the final balance reports from TP 10 BP4 and TP10 BP 5 the balance report for TP10 BP5 shows discrepancy transferred of £39.57 and then discrepancy resolved £9839.45. The transaction log completed for all transaction does not show any other figures being entered into or removed from housekeeping/local suspense account.

Gareth

Can we get details of this call - I'm interested in the detail and who raised it.

I do need this today if possible.

Many thanks

Lesley,

The Local suspense Problem was first raised as a call on the Horizon Help Desk by NBSC at 4:51pm on Monday 25th February 2013. HSD Ref is A2401368. Internal Ref PC0223870.

Problem diagnosed by Thursday 28th February and a conf call held with POL to brief them as to the issue and its scope.

Final set of info sent to POL on 15th March 2013.

I hope that gives you what you need.

Regards

Gareth
