1		Thursday, 27th June 2024.	1		was sent from Mr Dunks. There. Can you see an email
2	(9.4	l5 am)	2		26 November 2009 from Mr Dunks to Jane Owen?
3		GARETH IDRIS JENKINS (continued)	3	Α.	I think it's copied to Mr Dunks, isn't it from Jon
4		Questioned by MR BEER (continued)	4		Longman?
5	SIR	WYN WILLIAMS: Morning, my colleague,	5	Q.	You're quite right. Mr Longman to Ms Owen, copied to
6		Ms Eliasson-Norris, can't be here in person today.	6		Mr Dunks. You're quite right. If we scroll down it
7	MR	BEER: Thank you, sir.	7		says:
8		Good morning Mr Jenkins.	8		"I attach a report from the defence expert where he
9	A.	Good morning.	9		has highlighted a number of problems with the Horizon
10 14	Q.		10		system. Our barrister, Warwick Tatford, has asked that
11 12		Just for reference, no need to display it, you set out	11		the problems with Horizon that he has raised in his
12		in your third witness statement, paragraphs 326 to 521,	12		report are replied to in a witness statement form.
3 4		your involvement in Seema Misra's case. Just by way of	13		I presume that an employee of Fujitsu would have to
14		reference, before you ever became involved in it, back	14 15		produce the witness statement
15		on 1 April 2008, Mr Singh, Jarnail Singh, had advised	15 16		"In addition to this the defence have also requested
17		there was sufficient evidence for a prosecution of Mrs Misra. The reference for that, again, no need to be	10		some information", which I'm not going to read. Okay?
8		displayed, is POL00049658.	17	Α.	•
19		Can I turn, please, to what might be your first	10	Q.	If we go to page 5, please, at the top of the page. We
20		involvement or the genesis of your first involvement in	20	હ.	can see that Jane Owen sends that to Penny Thomas in
21		the case.	20		Fujitsu on 1 December:
22	Α.	Okay.	22		"This is the email and attachments that we chatted
23		FUJ00152866, please. If we can turn to page 6, please.	23		about. Please let me know if there is anything else you
24	_ .	An email if we just scroll down, and a bit more. We	24		need from me and if this kind of request needs to be
25		can't in fact see it. We'll have to scroll up to see it	25		raised in a more official way."
1 2	Α.	Okay? Yes.	1 2	A.	our prosecution" Possibly because I was quite business working on Horiz
3	Q.		3		Online at the time.
4	Α.		4	Q.	All right so it was about capacity, was it, as far as
5	Q.	If we go to page 3, please. If we just scroll up a bit	5		you knew?
6		more thank you you'll see an email from Penny	6	Α.	As far as I know, yes.
7		Thomas to David Hinde. Do you remember David Hinde?	7	Q.	Then if we scroll up, please, at page 2. Mr Hinde
8	Α.	Oh, yes, he was one of the Programme Managers within the	8		replies:
9		Post Office Account and I worked quite closely with him	9		"Penny
0		on a number of occasions.	10		"We have not identified anyone else who can take
1	Q.	So he was a Post Office	11		this on at present so this will need to be handled by
2	Α.	No, he was a Fujitsu person.	12		Gareth."
3	Q.	Working on the POA?	13		Then scroll up. An email that we've looked at
4	Α.	Yes.	14		before, I think we looked at it yesterday or the day
15	Q.	Thank you:	15		before, which is really about generally what you do to
6		"David	16		support prosecution activity.
17		"We had a conversation last week and you advised me	17	Α.	Yes.
8		I should no longer ask Gareth to support our prosecution	18	Q.	So this chain doesn't actually even though there's
19		activity. I now have a request from [the Post	19		a request for the provision of an expert report in the
20		Office], which they would like addressed prior to	20		form of a witness statement, or an expert's reply to the
21		Christmas, and I need an expert to respond. Could you	21		expert's report in the form of a witness statement
22		help me to identify a suitable candidate?"	22		ask you directly to perform that function, does it, when
23 24		Then she attaches the expert's report.	23		it's sent on to you?
24		Do you know anything about why you were not to be	24 25	Α.	No not at this stage, no. Can you help us, do you know why you're replying to this
25		approached, "We should no longer ask Gareth to support		Q.	

(1) Pages 1 - 4

1		chain with this series of questions and answers?
2	Α.	The questions are from this Dave Jennings and the
3		answers are mine. So, again, I'm interspersing things
4		so I think the darker font is his questions and the
5		lighter font, more to the left, are my responses, is how
6		I'm interpreting that.
7	Q.	My question was more: do you know why you're saying all
8		this in answer to the series of emails below, which is
9		about, "Can we have a reply from somebody within Fujitsu
10		in the form of a witness statement", to the defence
11		expert report in the Seema Misra case?
12	Α.	I don't have a clear answer. I'm assuming, from what
13		this is saying, that Dave Jennings wanted to have some
14		sort of background as to the sort of things I'd done in
15		the past but I'm I'm guessing from the sort of
16		questions he's asking.
17	Q.	Can you recall when you were first asked to provide
18		assistance to the Post Office in relation to Mrs Misra's
19		case?
20	Α.	I think it was from as a consequence of this email.
21		There may be I think there may be a later one, either
22		on this chain or a separate chain, that actually passes
23		me the report to have a look at but it was certainly
24		some time in December 2009.
25	Q.	You tell us in your witness statement that you do not
	-	5
1		something you mentioned previously in your oral
2		evidence as "fairly chaotic".
3	Α.	Yes, I would agree with that.

- 4 Q. What did you mean by your reference to the management by 5 the Post Office of Mrs Misra's case as being "fairly
- 6 chaotic"?
- 7 A. I think this came a bit more later. There were a number 8 of cases where I would respond to an email and then get
- 9 asked exactly the same question again by the same person
- 10 and, therefore, ended up sort of saying, "Well, I told
- 11 you this yesterday, here's the answer I gave you when
- 12 you asked me the question before". And there are number
- 13 of examples of that in the exchanges I had with Jarnail 14 Singh.
- 15 Other than receiving repeated requests for the same Q. 16 thing, was there anything else that made their
- 17 management of the case chaotic or fairly chaotic?
- A. I wasn't being asked very clear questions. I was having 18 to make all sorts of assumptions of what they wanted me 19
- 20 to do, I did try and set out what I thought I was being
- 21 asked to do, but it was very much a case of I definitely
- 22 didn't have clear instructions as to "Please do exactly
- 23 this", let alone formal instructions, as I now realise
- 24 I should have had.
- 25 Did you realise at the time that you weren't receiving Q.

7

- think you received any kind of briefing or explanation
- 2 about the background to Mrs Misra's case; is that right?
- 3 A. At that stage, I don't believe I did.
- 4 Q. And that you weren't in fact provided with Professor
- 5 McLachlan's first interim technical report?
- 6 Α. I don't believe I've ever seen that.
- 7 Q. Without a briefing or explanation about the background
- to Mrs Misra's case or the prosecution case against her 8
- 9 and without a copy of Professor McLachlan's first
- 10 interim report, how did that impact on your ability to
- respond to the Post Office's requests? 11
- A. I saw the Post Office's requests as being purely to 12
- 13 comment on the second report that I was provided with,
- either at this time or shortly afterwards. 14
- Q. So, again, performing a narrow function? 15
- 16 Α. Yes, because that's what I thought I was being asked to 17 do.
- 18 Q. Did you ever think, "Hold on, I don't know anything 19 about this case"?
- 20 No, I was just being asked "Please can you comment on Α.
- 21 this report", so I commented on the report in the way
- 22 I normally did by interspersing my comments within the
- 23 electronic version of the report.
- 24 Q. You also, in your witness statement, describe the Post 25 Office's management of Seema Misra's case -- this is
 - clear instructions?

- 2 I just thought that was the way things worked. So --Α.
- That's a slightly different point. Did you realise at 3 Q.
- 4 the time that you were not receiving clear instructions?
- 5 No, because I didn't know that I should have been. Α.
- 6 Q. Irrespective of the formality of a letter of
- 7 instruction, which you say you now realise that you 8
- ought to have received, did you at the time realise that
- 9 the requests being made of you were unclear?
- A. They were certainly unclear and I did the best I could 10
- 11 to interpret what I thought I was being asked. And
- 12 sometimes I did actually seek clarification to say,
- 13 "I think what you mean is this, isn't it?"
- 14 Q. You also describe in your witness statement that: 15 "At times I struggled to deal with the Post Office's 16 demands."
- 17 Is that because you were heavily involved in the rollout of Horizon Online? 18
- Yes. I mean, there was clearly a scheduling problem 19 Α.
- 20 I had, which I think I managed to fulfil, but, yes.
- 21 **Q.** Did you feel that there was pressure applied to you by 22 the Post Office to provide evidence in Mrs Misra's case
- 23 that conformed to the Post Office's expectations?
- 24 Α. Yes, they clearly wanted me to say that everything was
- 25 perfect and I don't think I actually said that.

2

1	Q.	In what way did that pressure manifest itself?
2	Α.	l kept on getting emails it was in spurts, it wasn't
3		solid throughout the time, but I kept on being asked
4		please can I do this, please can I do that, and I kept
5		getting occasional phone calls as well.
6	Q.	
7		being placed that was being placed upon you?
8	Α.	
9		what my normal reaction to try and handle things,
10	~	rather than worry about things.
11	Q.	So you felt uncomfortable but got on with it?
12	A.	Yes.
13	Q.	Did you raise the fact that you felt uncomfortable with
14		any of your managers?
15	Α.	
16 17		David Jones at the beginning of February that we had and
17 18		that was part of my uncomfortableness, if you like, and there were occasions when I'd raised with my line
10		manager, "Look, I'm being asked to do all this but you
20		want me to do all my day job stuff, how does this all
20 21		tie together?"
22	Q.	0
23	પ્લ.	rather the "we want evidence", the substance of the
24		evidence.
25		In your words, I think you said to say that the
		9
1		As I said already, by this time, you'd been asked to
1 2		As I said already, by this time, you'd been asked to provide a witness statement?
2	Α.	provide a witness statement?
	A. Q.	provide a witness statement? Yes.
2 3		provide a witness statement? Yes. "When Gareth completes his statement could he also

2		uncomfortable about doing that.
3	Α.	I think that was the reason why we got in touch with
4		David Jones, for example, at the beginning of February.
5	Q.	Other than that, did you escalate it in any way within
6		your organisation?
7	A.	I can't remember properly. I think there may be some
8		examples within the emails but I can't remember off the
9		top of my head exactly which ones they were.
10	Q.	Okay. Can we look, please, at FUJ00122794.
11	ч.	By this time, this is February 2010, for context,
12		you had received, by this time, a request to produce
13		a witness statement and, if we go down, please, to
14		page 2 thank you we'll see an email from Jarnail
15		Singh, in fact it's from his secretary or PA on his
16		behalf, of 5 February at 3.50 to Mr Jones, and copied to
17		you and Penny Thomas.
18	Α.	Yes.
19	Q.	The email body is addressed to you:
20		"Dear David and Penny"
21		He says:
22		"On first glance points 2-4 have not been answered
23		and I reproduce below."
24		Item 3:
25		"When Gareth completes his statement"
		10
1		checked out.
1 2	Q.	checked out. I'm going to come to your answers in a moment. I'm just

system was all okay or all alright, and you felt

uncomfortable about doing that.

11

(3) Pages 9 - 12

1	out	of	the	chain?

- 2 A. Yes.
- 3 Q. Why did you cut Jarnail Singh out of the chain?
- 4 A. I wanted advice from David Jones in particular as to
- 5 exactly what I should be saying, particularly since
- 6 I was reluctant to make a clear statement and I was
- 7 aware of this problem so I wanted guidance as to what
- 8 I should be saying about it.
- 9 **Q.** So you were really looking for a steer from Fujitsu
- 10 Legal on how to deal with this request?
- 11 **A.** Yes.

13

- 12 Q. You say:
 - "Brief responses as [below], but not sure that
- 14 I should put them in a witness statement ..."
- 15 A. Again, I was seeking guidance.
- 16 Q. Just help us with why you weren't sure you should put17 them in a witness statement?
- 18 A. I was just trying to get some clarity as to whether I -19 exactly what I should be saying. I was looking for
 20 guidance particularly from David Jones as to what
- 21 I should be saying.
- 22 Q. But why were you not sure you should put them ina witness statement?
- 24 A. I just didn't know. I'd not really had such much to do
- 25 with this sort of thing, so I was just seeking some sort 13
- statement. I am aware of one problem where transactions
 have been lost in particular circumstances due to
 locking issues. When this happens we have events in the
 eventing logs to indicate that there was an issue and
- 5 whenever we provide transaction logs to [the Post
- 6 Office] we check for any such events. In the case of
- 7 West Byfleet we have not provided any transaction logs
- 8 and so have not made these checks."
 - Would you agree that the implication of that was
- that you may be able to respond to question 3 when youhad the ARQ data?
- 12 A. Yes. I think that's basically what I was trying to say13 there.
- 14 Q. Now, you refer to one problem in that answer: you werereferring to the Callendar Square bug, right?
- A. No, I was referring to the Craigpark issue. I wasn't aware of the Callendar Square issue at that time.
- 18 Q. Could be the Craigpark be checked for by reference toARQ data?
- 20 A. It could be -- no, but it could be checked in reference21 to the NT event logs.
- 22 $\,$ Q. Is that what you're referring to where you say
- 23 "transaction logs"?
- 24 A. Well, the transaction logs I'm referring is to ARQ data,
- 25 but I was saying that, when we provide transaction logs, 15

- 1 of guidance.
- 2 Q. But what were the reasons that would prevent you from3 putting them in a witness statement?
- 4 **A.** I didn't know. I was just ignorant.
 - Q. What, that, "Is this something that we do, we provide
- 6 witness statements?" I mean, you were providing one7 already?
- 8 A. Yeah, yeah. I was just -- I was just asking the
 9 question.
- 10 Q. Wasn't it more about the content; you were worried about11 putting the content in a witness statement?
- 12 A. I was just looking for guidance as to what I should be13 saying.
- 14 Q. Weren't you really not focusing on "Should I providea witness statement or not", you were saying by that,
- 16 "I'm not really sure that I should put this content in
- 17 a witness statement"?
- 18 A. I don't know.
- 19 Q. Look at number 3. You'll remember this is the answer to20 the question:
- 21 "Could he also mention whether there are any known22 problems with the Horizon system that Fujitsu are aware
- 23 of? If none, could this be clarified in the statement?"
- 24 You say:
- 25 "This is where I'm reluctant to make a clear 14
- we also check against the corresponding NT events as part of that process.
 Q. That's what you refer to when you say "eventing"?
- 4 A. Correct.
- 5 Q. So that means NT event logs? So the third line --
- 6 A. Yes, yes.
- 7 Q. At this time, did you know of other problems which would
 8 require more than the ARQ data to investigate whether
 9 they were in play at this branch?
- 10 A. I wasn't aware of any other such problems.
- 11 Q. What about accounting discrepancies due to hardwarefailures?
- 13 A. I thought that those would have been picked up as --
- would have been picked up at the time because they wouldhave been fairly obvious at the time when there were
- 16 such hardware failures.
- 17 Q. You'd need to look, wouldn't you? Whether they'd been
 picked up at the time or not was the very issue that
 you'd be looking for, wouldn't you?
- A. I'm not sure whether I was thinking of that at the time.
 This was --
- 22 Q. You agree now?
- 23 A. This was this issue that I thought about, so therefore
- 24 I raised this and asked for guidance as to what should
- 25 be done about it.

- 1 Q. What about bad blocks; do you remember what they were?
- 2 A. I don't think bad blocks actually caused problems. What
- that effectively meant was that the system came to
 a halt and then needed to be restarted to sort things
 out.
- 6 **Q.** Would that be shown on an NT event log?
- 7 **A.** Yes.
- 8 Q. You'd need the Horizon Helpdesk records to look for
- 9 calls suggesting that hardware had been at fault,10 wouldn't you?
- 11 A. I was aware that someone else had done an analysis of
 12 Helpdesk calls or --
- 13 Q. Were you aware --
- 14 A. -- maybe not at this point but I became aware of that,15 as time went on.
- 16 **Q.** At this point, in order to answer that question, even if
- 17 it was restricted in your mind to West Byfleet, you
- 18 would need to look at the Horizon Helpdesk records to
- 19 look for calls made by Mrs Misra or other people at
- 20 branch level, for example suggesting hardware issues,21 wouldn't you?
- A. I wasn't aware that I would have needed to have done
 that because, as I say, I thought that was something
- 24 that someone else would be covering.
- 25 **Q.** Why did you think that it would be something that 17

I

- 1 I did so at some point.
- 2 **Q.** You would need to look at KELs to see which problems
- were in play for at least the period when Mrs Misra wasalleged to have stolen money from the West Byfleet
- 5 branch, wouldn't you?
- 6 A. I'm not sure I would have thought of looking at KELs
- 7 because my normal approaches was to look at the PEAKs
- and PinICLs which are sat behind them, rather than theactual KELs.
- 10 **Q.** But you agree that, if you were to answer the question
- 11 completely of whether there were known problems with
- 12 Horizon that Fujitsu are aware of, you would at least
- 13 have to look at any PinICLs or PEAKs to see whether any
- 14 known problems were in play for at least the period when15 Mrs Misra was alleged to have stolen money from West
- Byfleet?A. I wasn't actually answering the question at this point;
- 18 I was just saying that I didn't think I could answer the
 question --
- 20 Q. I'm asking you: if you were to answer it accurately and21 completely, that's what you would need to do?
- A. Possibly. As I say, I don't think I ever did actually
 answer that question, as such.
- 24 Q. We know that you didn't. I'm looking at what you would
- 25 need to do in order to have done it properly,

- somebody else would be covering?
- A. Because my expertise was in the software rather than thehardware.
- 4 Q. Wouldn't you need the full message store to look for5 unusual restarts?
- 6 A. You could see those, you should be able to see those7 from the ARQ data, I think.
- 8 Q. You think or you know?
- 9 A. I'm trying to remember now. It's a long time ago since10 I looked thorough the detailed ARQ data.
- 11 Q. If you were going to give a complete answer to the
- 12 question whether there were any known problems with the
- 13 Horizon system that Fujitsu are aware of, you would need
- 14 to investigate PinICLs and PEAKs, wouldn't you?
- 15 A. Yes, but, as I say, at this stage, I was just saying
- 16 I couldn't make a clear statement and I wasn't thinking
- 17 about what else I would need to do. I was just saying,
- 18 "This is my immediate response to the question I've been19 asked".
- 20 Q. But do you agree that, if you were going to give
- 21 a complete answer to the question of whether there were
- 22 any known problems with the Horizon system that Fujitsu
- 23 are aware of, you would need to look at PinICLs and
- 24 PEAKs?
- 25 A. There would have been some need to do that and I believe 18
- 1 accurately, completely. The implication of the answer
- 2 that you gave, namely "I could answer the question if
- 3 I was given event logs and ARQ data", that wasn't right,
- 4 was it? You needed much more information to answer it5 accurately and completely?
- 6 **A.** I had not thought of that at the time.
- 7 Q. Do you agree now?
- 8 A. Possibly. I don't know.
- 9 **Q.** Why don't you know?
- 10 A. Yeah, I probably would have had to do some further
- 11 research.
- 12 Q. Thank you.
- 13 Now, I think you and your colleagues within Fujitsu
- 14 made a number of suggestions to the Post Office in the
- 15 following days to obtain relevant transaction data in
- 16 relation to Mrs Misra's tenure at the West Byfleet
- 17 branch, didn't you?
- 18 **A.** Yes.
- 19 **Q.** Can we look at those repeated requests to the Post
- 20 Office. FUJ00122713, and page 1. Thank you.
- 21 5 February, 2.46; Mr Jones, the lawyer, to Mr Singh, the
- 22 lawyer; you and Penny Thomas copied in. It's just in
- 23 relation to the part -- if we scroll down, please, the
- 24 penultimate paragraph, Mr Jones says to the Post Office:
- 25 "One concern is that [the Post Office] have not 20

1		apparently requested transaction data for West Byfleet
2		for the period and transactions in question. This would
3		normally be provided in previous cases and would include
4		Fujitsu extracting log files from the system to enable
5		us to provide details of transactions. Surprisingly
6		this has not been requested in this case. Perhaps you
7		would consider the need for this."
8		That's a request or sentiment I think you would
9		agree with?
10	Α.	Oh, definitely.
11	Q.	Thank you.
12		If we look, please, at FUJ00152930. Same day at
13		5.10; same distribution, Jones to Singh; you and Penny
14		Thomas copied in. If we scroll down, please thank
15		you he effectively passes your reply, that we've just
16		looked at, into numbered paragraph 3
17	Α.	Yes.
18	Q.	and, in the last part of the paragraph, he says to
19		Mr Singh:
20		"In the case of West Byfleet we have not been asked
21		to provide any transaction logs and so have not made
22		these checks."
23	A.	Yes.
24 25	Q.	Correct? So, essentially, making a similar demand or
25		request or point to the Post Office? 21
4		
1		relating to this branch. The logs would show any
2		equipment failures and replacement which might possibly
2 3		equipment failures and replacement which might possibly relate to lost transactions."
2 3 4		equipment failures and replacement which might possibly relate to lost transactions." So, again, you're making the point, this time a bit

23

- Α. Yes. 1
- 2 Q. Agreed?
- 3 Α. Agreed.
- 4 0 So twice in one day, essentially?
- 5 Α. Yes

7

- 6 Q. Then can we look at POL00093961, page 19, please. This is a draft witness statement you provided on 8 February
 - 2010 in Seema Misra's case. If we just go forwards for
- present purposes to page 21. We can see in the top 9
- 10 paragraph, I think you're performing the familiar task
- 11 of cutting into a document of yours what somebody else
- says, here it's Professor McLachlan; is that right? 12
- 13 Yes, I think this is his third report, I believe? Α.
- 14 Q. Yes.
- 15 A. And so the italics is my response to the normal font of
- 16 his actual statements in the report --
- 17 Q. So in his report he'd said:
- "The implication is that EPOSS transactions can be 18
- 19 lost due to equipment failures. Without access to the
- 20 sub post office data records and the intermediate data
- 21 records in the end-to-end process it will not be
- 22 possible to identify the extent to which this may
- 23 explain the accounting discrepancies."
- 24 You say in your draft witness statement:
- 25 "No request has been made to Fujitsu for any data 22
- 1 Α. Correct, yes.
- 2 Would it make sense to you that they would request data Q.
- 3 for the period covered by the charge?
- 4 Α. Yes, I can understand that.
- 5 Q. Can we go forwards, please, in fact on the same day.
- 6 FUJ00083722. If we scroll down, please, to the top of
- 7 page 2, we see a chain there beginning -- I'm not going
- 8 to go through it all -- from Anne Chambers to others
- about Callendar Square in 2006; do you see that? 9
- A. Yes, I see that. 10
- Q. If we just go back up to the bottom of page 1, we see on 11
- 8 February, so the same date we were looking at that 12
- 13 draft witness statement, Anne Chambers essentially
- 14 forwarding you that chain; is that right?
- 15 A. Yes, that's right.
- Q. Do you remember the circumstances in which she forwarded 16 vou that chain? 17
- A. I think I'd asked her to do so because one of the 18
- requests I had -- and if we go back to the witness 19
- 20 statement we were just looking at, there's a comment
- 21 there saying I've asked about Callendar Square and
- 22 I don't know anything about it but I can do some
- 23 research, and this was me doing the research.
- 24 Q. Okay, so you had been asked to comment in a witness 25
 - statement about the Callendar Square bug, you had no 24

1		personal knowledge and you were trying to find out some	1
2		information	2
3	Α.	Yes.	3
4	Q.	from Anne Chambers?	4
5	Α.	Yes.	5
6	Q.	One of the things she did was forward you this chain?	6
7	Α.	Yes.	7
8	Q.	She highlights a KEL and asks you, "Can you see KELs?",	8
9		and says:	9
10		"I'd forgotten this did give a discrepancy, but	10
11		also a receipts and payments mismatch, if they persisted	11
12		and rolled over (though it was usually obvious that	12
13		something was wrong).	13
14 15		"And a flood of NT events (not 'Riposte events'!) which SMC should have noticed at the time.	14 15
16		"Since we are now checking for these particular	15
17		events, and did a catch up for old retrievals, can you	10
18		say that the current branch did not have this problem??	18
19		"Anyway it stopped happening once S90 was installed	10
20		(around 4 March 2006, according to the info below).	20
21		"This particular problem would only affect branches	20
22		with more than one stock unit. It happened several	22
23		times at Callendar Square, though we never found why	23
24		they were so badly affected.	24
25		"Is this sufficient?"	25
		25	
1		have this problem??"	1
2	Α.	Well, at that stage I couldn't but that was a check that	2
3		we did later do when we checked the NT events for the	3
4		West Byfleet branch.	4
5	Q.	Do you agree that there's an implication there that	5
6		you're looking for ways to find or to say that the bug	6
7		had no application in Seema Misra's case?	7
8	Α.	Yes.	8
9	Q.	Was there a bigger point arising from this email, namely	9
10		the fact that the Callendar Square bug existed, that it	10
11		produced discrepancies, meant that before testifying as	11
12		to the reliability of Horizon accounts, you needed to	12
13		carry out a thorough review of PinICLs, PEAKs and KELs?	13
14	Α.	I thought that what I needed to do was a thorough review	14
15	~	of the NT events, which is what I did.	15
16	Q.	I think you reflected earlier in your evidence that	16
17 18		you've now realise that something more broad was needed or a broader	17
			18
19 20	Α.	Looking back now but, at the time, I thought it was sufficient to just look at the NT events.	19 20
20	Q.	And Helpdesk records as well, would you include that in	20
21	હ.	the list of things that you ought to have looked at?	21
23	Α.	Now, yes; at the time, I felt that that had or at	22
24		least maybe not at this exact time but I was aware at	20
25		some stage that Andy Dunks had actually done a survey of	25
		27	

	She said, "I'd forgotten this did give
	a discrepancy", had you asked her whether the bug would
	produce discrepancies?
Α.	I can't remember the conversation I had at the time.
	I was just asking for information.
Q.	That rather implies there had been an exchange or
	a conversation when she had forgotten that this bug had
	produced discrepancies?
Α.	Yes, I could well have asked about that. As I say,
	I just can't remember that conversation.
Q.	Would you be interested to know whether the bug did or
	did not produce discrepancies?
Α.	Clearly, because, if there had been a discrepancy, then
	that would be something important to have reported on.
Q.	Also, whether the bug was or the effects of the bug were
	noticeable to the user, the branch user?
Α.	Yes.
Q.	That would be something that would be important to
	discover?
Α.	Yes.
Q.	She asked the question, or she says:
	"Since we are now checking for these particular
	events, and did a catch up for old retrievals"
	She then asked the question:
	" can you say that the current branch did not
	26
	Helpdesk calls and
Q.	We're going to come to those a bit later.
	Do you agree that, in order to answer the question
	that had been asked of you, you would need to look at
	the full message store?
Α.	I would certainly need to look at the ARQ data, whether
	I needed to look at the full message store or not, I'm
	not 100 per cent sure.
Q.	Why aren't you 100 per cent sure?
Α.	I'm not sure what I would have found in the full message
	store that was not obvious in the ARQ data. It's
	certainly useful to have the full message store there to
	look at if I would need to do so, and I made sure I did
	get it.
Q.	Winding forwards, you say eventually in your witness
	statement that you had little personal knowledge of the
	Callendar Square bug until 2010, when you were asked to
	find out about it and comment on it in the Misra case?
Α.	And that's what this email exchange is all about.
Q.	If you didn't have any personal knowledge at all, do you
	know why you were asked to comment on it?

- **A.** No, is the simple answer.
- ${\bf Q}. \ \ \, {\rm Did}$ you question why somebody with no knowledge about
- an issue was asked to provide a witness statement and
- then go to court about the issue?

1	Α.	2	1
2	Q.		2
3		experience of the bug in question was not being asked to	3
4		answer the questions?	4
5	A.	,	5
6	Q.	Do you agree that, if you had no firsthand knowledge of	6
7		the bug, you weren't truly in a position to give	7
8		evidence about it, its effects, and whether or not it	8
9 10	•	had afflicted Mrs Misra's branch?	9 10
10	Α.		10
12		about the bug to be able to say that it hadn't affected that particular branch.	11
13	0	What about the broader issues as to the bug itself?	12
14	ω.	Were you in a sufficiently knowledgeable position to	13
15		give evidence about that?	14
16	Α.		16
17	Π.	the real underlying cause was because that was something	10
18		in the Escher software, as we discussed the other day.	18
19	0	Can we move forwards, please. POL00054220, and look at	19
20	ч.	page 2, please. If we just look at the foot of page 1,	20
21		we can see that this is an email from you, I think.	20 /
22		There we are: you to Mr Singh, copied to Penny Thomas,	22
23		and we're on 25 February now.	23
_0 24	Α.		24
25	Q.		25
		29	
1		looking at FUJ00152992. Can we see you send a further	1
2		email the next day to Mr Singh, copied again to Penny	2
3		Thomas, and you say:	3
4		"Jarnail	4
5		"I've no idea what it is that the defence is looking	5
6		for in this case or exactly what is alleged to have	6
7		happened. It is normal to identify a specific time	7
8		period of about a month to look for some specific	8
9		fraudulent transactions. As I've no idea exactly what	9
10		is being alleged I can't really advise as to what	10
11		evidence might be required either to support the	11
12		prosecution or the defence. [The Post Office's]	12
13		Prosecution Support Team have a formal mechanism to	13
14		request logs for specific periods and there is a process	14
15		to do that. Although I have suggested for some time	15
16		that these logs are requested, I understand that no such	16
17		request has been made to Fujitsu. Trying to analyse	17
18		transactions over a period of 2 or 3 years"	18
19		There you're referring essentially to the period of	19
20		the allegations against Mrs Misra; is that right?	20
21	Α.	I'm not sure that I was fully aware of the period of the	21
22		allegation at that stage, but I think I was probably	22
23		generally aware that we were talking about a long	23
24		period, not a short period.	24
25	Q.	" is likely to take several weeks or months of	25
		31	

1		say things were hectic and you had a day of leave. Then
2		you're essentially reporting back your communication or
3		conversation with Professor McLachlan, yes?
4	Α.	Yes.
5	Q.	In the fourth paragraph, you say:
6		"I also explained to him how some of Horizon works
7		and why this means that some of his hypotheses were
8		invalid. I also pointed out that in order to identify
9		exactly what was happening, then it would be necessary
10		to go through the detailed logs of the relevant times
11		and that as far as I was aware, no request had been made
12		for any such logs (though I think they may now have been
13		requested)."
14		So it was still the case that you were, by
15		25 February, conducting a conversation with the defence
16		expert without an analysis having occurred of what you
17		call the detailed logs of the relevant times?
18	Α.	Correct.
19	Q.	Was that problematic?
20	Α.	It really depended what the questions were. So, I mean,
21		I think we had quite a useful discussion in terms of, at
22		a high level, how Horizon was operating but, clearly, in
23		terms of proving some of the detail and some of his
24		hypotheses, we would need to examine the logs.
25	Q.	
		30
4		offent consciently if it is not closely what is being
1		effort especially if it is not clear what is being
2		looked for and I certainly cannot commit that amount
2 3		looked for and I certainly cannot commit that amount of time to it."
2 3 4		looked for and I certainly cannot commit that amount of time to it." So, again, you're pressing the point that you've
2 3 4 5		looked for and I certainly cannot commit that amount of time to it." So, again, you're pressing the point that you've been asking for some time now or Fujitsu have been
2 3 4 5 6	۸	looked for and I certainly cannot commit that amount of time to it." So, again, you're pressing the point that you've been asking for some time now or Fujitsu have been asking for some time now that the logs be requested?
2 3 4 5 6 7	А.	looked for and I certainly cannot commit that amount of time to it." So, again, you're pressing the point that you've been asking for some time now or Fujitsu have been asking for some time now that the logs be requested? Yes.
2 3 4 5 6 7 8	A. Q.	looked for and I certainly cannot commit that amount of time to it." So, again, you're pressing the point that you've been asking for some time now or Fujitsu have been asking for some time now that the logs be requested? Yes. Can we look, please, at POL00169122, and look at page 3,
2 3 4 5 6 7 8 9		looked for and I certainly cannot commit that amount of time to it." So, again, you're pressing the point that you've been asking for some time now or Fujitsu have been asking for some time now that the logs be requested? Yes. Can we look, please, at POL00169122, and look at page 3, please thank you. This is an email from Jon Longman
2 3 4 5 6 7 8 9		looked for and I certainly cannot commit that amount of time to it." So, again, you're pressing the point that you've been asking for some time now or Fujitsu have been asking for some time now that the logs be requested? Yes. So I understand, and I know that's the data that I eventually got. When you eventually got the data for that limited

1		this period"?					
2	Α.	I took the fact that I was being given data for that					
3		period, that that was the limit of what I needed to					
4		investigate.					
5	Q.	That's circular. Did you know why you were given data					
6		between those two time periods?					
7	Α.	I think I may have been told that that was the period					
8		during which false accounting had occurred and there'd					
9		been some question about theft. I think I've set that					
10		out in my witness statement but I can't remember the					
11		exact details.					
12	Q.						
13		analysis of that transaction data, FUJ00156128. We're					
14		on 3 March now, email from you to Warwick Tatford,					
15		copied to Penny Thomas:					
16		"Warwick,					
17		" I've added my comments to [the] fifth report."					
18		The paragraph below, you say:					
19 20		"I've now also got hold of the transaction logs for December 2006 to December 2007. These amount to a total					
20 21		of nearly half a million transactions"					
21		Can you see that?					
23	Α.	Yes.					
24	Q.	So by this time you had the ARQ data, is that right, for					
25		the limited period that had been requested?					
		33					
		55					
1	Q.

1	Α.	Yes, and	I think I also had the raw logs, bu	t the

- analysis I did was restricted to what I had in the ARQdata.
- 4 Q. Why was the analysis restricted to what you had in the5 ARQ data?
- 6 A. Because I was looking for specific things that had been
 7 mentioned in Professor McLachlan's second report, as
- 8 I lay out in this email. And this email is saying,
- 9 "This is the investigation that I have done on the data
- 10 that I've got", and I also, I believe, suggested other
- things that could be looked at and I don't think anyoneever took me up on it and said, "Can you please go and
- 13 have a look at that as well?"
- 14 Q. So, again, it was a restricted function that you wereperforming, ie responding to that which Professor
- 16 McLachlan had alleged?
- 17 A. Yes. I believe I'd been told that this was all needed
- 18 very quickly because I believe there was a court date
- 19 about a week or so later, so there wasn't really time to
- 20 do anything more thorough than that.
- 21 Q. Indeed. Can we look at your witness statement, please.
 22 It's your third witness statement in the Misra case.
- 23 POL00001643. Can you see that's your witness
- 24 statement --
- 25 **A.** Yes.

1	"The problem occurred when transferring cash or
2	stock between stock units. Note that West Byfleet
3	does operate multiple stock units so the issue could
4	have occurred. It manifests itself by the receiving
5	stock unit not being able to 'see' the transfer being
6	made by the 'sending' stock unit and is compounded by
7	attempting to make a further transfer. Please note that
8	such transactions usually reappear the next day. It is
9	clearly visible to the user as the 'Receipts and
10	payments mismatch' at the time that one of the stock
11	units is balanced. This usually results in the branch
12	raising a call. There are no such calls in Andy Dunks'
13	witness statement of 29 January which summarises the
14	calls raised by West Byfleet. Also this can be checked
15	on any balance reports or trading statements that are
16	available from the branch which should show that
17	receipts and payments do [not] match and that the
18	trading position is zero. The problem is also visible
19	when looking at the system events associated with the
20	branch. The system events from 30/06/2005 to 31/12/2009
21	for West Byfleet have been checked and no such events
22	have been found. The problem was fixed in the S90
23	release which went live in March 2006 and so would not
24	have been relevant at the time of the detailed
25	transaction logs obtained for West Byfleet between
	36

1		December 2006 and December 2007."
2		Do you agree much of what you said here was
3		assertions made by you, based on what Anne Chambers had
4		told you?
5	Α.	I had also looked at the underlying PEAK, which had got
6		the analysis that she had done at the time.
7	Q.	Is that the reference, if we go back up the page, to
8		"I have examined our records"?
9	Α.	I think so, yes.
10	Q.	So, for example, you say the problem was fixed. Could
11		you say that the problem was fixed?
12	Α.	I the PEAKs said that the PEAK was closed with the
13		comment saying that this is this fix appears to have
14		done it and the problem has not reoccurred since the fix
15		has gone in.
16	Q.	That's slightly different from asserting in a witness
17		statement that the problem was fixed, wasn't it?
18	Α.	I didn't think so at the time.
19	Q.	Looking back now, do you appreciate the difference?
20	Α.	Okay, yes, I probably appreciate the difference now but,
21		at the time, I felt that it was the same thing.
22	Q.	If you carry on reading, over the page, you say:
23		"Therefore I can conclude that the problems
24		identified in Callendar Square are not relevant to
25		West Byfleet"
		37
		37

- 24 tirst part of the paragraph is dealing with Horizon
- 25 more generally though, isn't it?

39

- Then you go on to say: "On 2 October 2009 I produced a report about Horizon data integrity. Within this report are details about transactions (sometimes known as EPOSS transactions) and various scenarios that could occur following system failures. In rare circumstances it is possible for transactions to not be recorded on the local system but
- in all such cases the user would be aware of this. 8
- I produce this report as [your] exhibit GJ/01." 9
 - That's your Horizon data integrity report, the first
- 11 one, that we looked at yesterday --
- 12 Α. It is.
- 13 Q. -- is that right?
- A. Yes. 14
- 15 Q. The cross reference -- no need to go there -- is
- 16 FUJ00080526.
- 17 Why were you producing that report in the context of 18 the Misra case?
- 19 Α. Because I thought it gave a useful summary in section 3
- 20 of the sort of hardware errors that could occur that
- 21 could possibly cause loss of data.
- 22 Q. You continue:
- 23 "As with any large system, there will be occasional
- 24 failures, such as the one found in Callendar Square,
- 25 Falkirk. Any such faults, whether during testing or 38
- 1 Α. Yes.
- Not the branch in question: West Byfleet? 2 Q.
- 3 Α. Yes.
- 4 Q. Would you agree that a complete answer would say: There are many known problems with Horizon. Fujitsu keeps 5
- records of them in documents called PinICLs, PEAKs and 6 7 KFI s?
- A. I can understand that now. I don't think I would have 8 thought of it that way at the time. 9
- Q. By answering the question in this way, you did not 10 disclose the existence of PinICLs, PEAKs and KELs, did 11 you?
- 12

- 13 Α. I didn't know that I needed to.
- 14 Q. By answering the question in this way, conditionally,
- 15 "Any such faults would be investigated", rather suggests that the only one is Callendar Square, doesn't it? 16
- A. But certainly later on in the process, I did make it 17
- 18 clear that there were PinICLs, PEAKs and KELs, and no one asked me to say anything about those in any sort of 19 20 statement.
- 21 In any case, you say that any faults would be Q.
- 22 investigated and resolved appropriately?
- 23 A. That was my belief.
- 24 Q. You believed in the life of Horizon all faults had been
 - resolved appropriately?

1	Α.	That was my understanding.
2	Q.	What investigation did you carry out in order to be able
3		to confidently assert that?
4	Α.	I'm not sure that I did any specific investigation at
5		the time.
6	Q.	Thank you.
7		Can we turn to a different topic, please, whether
8		you mentioned in your witness statements your knowledge
9		of other bugs
10	Α.	Okay.
11	Q.	by looking to start with, please, at FUJ00117478.
12		This a document I don't think we've seen before or
13		much before. It's prepared by you, correct, on
14		29 January?
15	Α.	Yes, but this relates to Horizon Online, not Legacy
16		Horizon.
17	Q.	I'm going to look at a series of Horizon Online just
18		so you know where I'm going issues?
19	Α.	Okay.
20	Q.	The heading tells us what it's about, the "Issue of
21		Duplicate Statements found at Derby":
22		"The purpose of this note is to describe the issues
23		found at Derby this week with duplicate settlements and
24		present options for fixing the defect[s]."
25		So it sets out the problem and this had led to
		41
	_	
1	Q.	What does that mean, "full regression testing of the
2		counter"?
2 3	Q. A.	counter"? That before we would put that change into live, then we
2 3 4		counter"? That before we would put that change into live, then we would need to go through a regression testing cycle,
2 3 4 5		counter"? That before we would put that change into live, then we would need to go through a regression testing cycle, which would take a few days, so it was a case of how
2 3 4 5 6		counter"? That before we would put that change into live, then we would need to go through a regression testing cycle, which would take a few days, so it was a case of how quickly were we going to get the fix in place, and so,

25 bug had manifested itself at Coton and Warwick?

43

- duplicate transactions; is that right?
- 2 Α. Yes, I need to put this a bit of context.
- Oh, please do. 3 Q.
- 4 A. We're talking now about the pilot of Horizon Online. At
- that stage it was operating in about a dozen/couple of 5
- 6 dozen branches, so we were expecting to get some initial
- 7 problems, and we did, as expected, get a number of
- problems during the pilot phase. But, as far as I'm 8
- 9 aware, the problems were all resolved before we actually
- 10 rolled out Horizon Online later on that summer. 11
- Okay, that's important context which may --Q.
- Very important. That's why I wanted to bring it out. 12 Α.
- Q. That may apply to a number of the issues that I'm going 13 14 to ask you about.
- A. I suspect it will apply to all of them but we'll see. 15
- 16 Q. You, at the foot of the page -- if we just go over the
- 17 page -- suggest some solutions/fixes which are either
- 18 a tactical solution or a strategic solution, yes?
- 19 Α. Yes.

20 **Q.** If we look at the foot of the page, second paragraph

- 21 under "Strategic", you say:
- 22 "The change is a straightforward code change ...
- 23 However, full regression testing of the counter is
- 24 recommended."
 - Α. Yes.

25

1

- Α. Ah, okay.
- Q. Does the fact that this group of people were drawn 2

- 3 together reflect the fact that the Derby bug was 4 a serious issue?
- 5 A. Yes, because it affected the accounts and, obviously, we 6 didn't want any problems that affected the accounts in 7 Horizon Online moving forward.
- 8 Q. Can we go forwards, please, to FUJ00093031. This is the 9 next day, 9 February. I don't think you're on this
- circulation list. 10
- A. No, but I think it was forwarded to me later. 11
- 12 Q. Did the Derby bug issue lead to a full Fujitsu internal 13 audit, essentially?
- 14 A. Yes. It took place the previous week when I was off 15 sick, which is probably why I wasn't actually involved 16
 - in the circulation of it, because the auditors wouldn't
- have talked to me. 17
- Q. If we just look at the foot of page 1, please. The last 18 paragraph. It says: 19
- 20 "The net effect [I think that's of the bug] would be
- 21 that the Post Office and the branch records would not
- match. Where this happens, the Post Office investigates 22
- 23 the branch and postmaster, with a view to retraining or
- 24 even uncovering fraud. It would seriously undermine
- 25 Post Office credibility and possibly historic cases if 44

1		it could be shown that a discrepancy could be caused by
2		a system error rather than postmaster/clerk action.
3		More importantly, the central database as the system of
4		record would be called into question."
5		Is what is recorded there reflective of the views
6		that you held at the time about the bug?
7	Α.	I was certainly my view was that these bugs all
8		needed to be fixed before we could put any reliability
9		into the way that Horizon Online operated. I didn't see
10		that it had been particularly important in terms of
11		prosecution. What we needed was a system that correctly
12		handled accounts and, until we had a system that
13		correctly handled the accounts, then we needed to do
14		that moving forward, and I believe that that's what
14		
16		happened by the time the rollout of Horizon Online
10	Q.	happened. Why would you not have seen it through the complexion or
17	Q.	
		the lens of it affecting prosecutions?
19	Α.	Because I didn't think we should be going anywhere near
20		prosecutions, in terms of the state of that system,
21		until we actually had the system that was stable and
22		operating correctly. Prosecutions was the important
23	_	thing was to have the system operating correctly.
24	Q.	
25		would seriously undermine the Post Office's credibility? 45
1		agreed with that, but my focus, as I say, was on
2		
		actually getting the bugs fixed not on what the impact
3		they would have had if they hadn't been fixed. Because
4		it was clearly very important that these bugs were
5	~	fixed.
6	Q.	You didn't reveal the existence of this bug in your
7		March 2010 witness statement or any of the subsequent
8		witness statements, did you?
9	Α.	No, because it was totally irrelevant.
10	Q.	
11		Online
12	Α.	Yes.
13	Q.	you needn't reveal anything about Horizon Online
14		in
15	Α.	It was a totally separate oh, it it was a totally
16		separate system.
17	Q.	Was that your mindset at the time?
18	Α.	Yeah.
19	Q.	"I needn't tell the court or the defence anything about
20		the existence of bugs that caused financial
21		discrepancies, which aren't revealed to a subpostmaster
22		in the system we're currently operating, because those
23		facts cannot be relevant to the court?"
24	^	Voc. and that is still my tochnical holiof

- 24 **A.** Yes, and that is still my technical belief.
- 25 I understand now that the legal position is different 47

- 1 A. If the bug was left unfixed yes, but my approach was
- much more to do with fixing the bug, rather than any
- 3 suggestion of not fixing it and that was where I was
- 4 coming from: that the important thing to do was to get
- these bugs fixed and so that we actually had a properlyoperating system.
- 7 Q. Do you agree that the existence of the bug would8 possibly undermine historic cases?
- 9 A. Don't see that it was anything to do with historic cases
- 10 because, as I say, the important thing was to get the
- 11 thing fixed, rather than leave the thing unfixed, and
- 12 that was what I was focusing on.
- 13 Q. Do you know how it was said, then, in this document,
 14 that the existence of this bug in Horizon Online could
 15 possibly undermine historic cases?
- 16 **A.** I didn't see that it could affect the historic cases
- 17 because Horizon Online was a totally different system
- 18 from the Legacy Horizon system, as far as the accounting
- 19 was concerned. So I didn't see that it would have that
- 20 sort of impact.
- 21 **Q.** The paper explains it in terms of that that is because
- it could be shown that a discrepancy could be caused bya system error, rather than the postmaster or clerk
- 24 action?
- 25 A. I see that's what it says. I wouldn't have necessarily 46
- 1 from that but, as a technician, which is basically what 2 I am, not a lawyer, then I still believe that that's the 3 case 4 Q. But you were stepping out of the computer lab and 5 walking into a court, weren't you? 6 I didn't realise that there was that difference that Α. 7 I needed to worry about and no one advised me as to 8 that. 9 Q. Did you think, "I need to take a bit of advice here. 10 There are problems with the current system where, as I'm 11 making these witness statements in the Seema Misra case, 12 we're discovering problems which don't reveal themselves 13 to subpostmasters, which cause financial discrepancies, 14 and they're caused by bugs. Have I got to reveal that; 15 should I reveal that in a candid way to the court"? A. It never occurred to me that anything to do with Horizon 16 17 Online was relevant to Legacy Horizon. You said that --18 Q. Yeah --19 Α. 20 Q. -- that it never occurred to you, and so it didn't occur 21 to you to reveal it but it didn't occur to you to ask 22 whether you should reveal it?
 - 23 A. No, it just seemed so totally illogical to me.
 - 24 Q. You didn't know how the legal system worked --
 - 25 **A**. I--

1 Q	you tell us	1		up and a bit more, thank you.
2 A	. I assume the legal system had some sort of logic to it.	2		This is a discussion, you're not party to this
3	I still don't understand why the legal system would	3		discussion, but I just want to know whether you knew
4	think that I should be revealing problems to do with	4		about it. This is a discussion about amendments being
5	Horizon Online in Legacy Horizon. Okay, I understand	5		made to that document we just looked at. You understand
6	now, having been told that I should have considered it	6		Mr Jenkins?
7	but it just doesn't actually make an awful lot of sense	7	Α.	Yes, I understand that. I can't remember if I was
8	to me as a technician.	8		copied in on this email or not. I think I may
9 Q	. Again, I'll ask the question: do you not realise that's	9		possibly have been passed it before but I certainly
10	the very reason why you should seek advice?	10		wouldn't have taken much notice of it.
11 A	. I didn't well, I had sought advice from	11	Q.	If we look at the bottom of the page, thank you, just
12 Q	. Not about this issue?	12		a bit further, I think we see it's signed off by "JP"?
13 A	. Well, not this specific issue but I had sought advice in	13	Α.	Yes. JP gave me some advice and was in contact with me
14	terms of what I should be saying from David Jones.	14		at the time that I was at the Seema Misra trial. I also
15 Q	. Yes, but not about the broader issue of "I've got this	15		think he phoned me up a couple of times to see how I was
16	knowledge of many bugs, including bugs that are	16		getting on, and so on, and he certainly never mentioned
17	revealing themselves as we roll out or as we develop	17		to me anything about why I needed to think about the
18	Horizon Online, have I got to reveal those too?"	18		problems such as this, which he was well aware of.
19 A	. It just never occurred to me that it was at all	19	Q.	Just focusing on this for a moment, he says to
20	relevant.	20		Mr D'Alvarez:
21 Q	. Just remember that last paragraph, there, in particular	21		" please find below the two comments I had raised
22	the sentence, "It would seriously undermine Post	22		"
23	Office's credibility and possibly historic cases", and	23		A paragraph:
24	can we look at FUJ00094392. Look at the foot of the	24		"First paragraph, page 2 the following section is
25	page, please. This is an email exchange, if we just go	25		potentially problematic: 'It would seriously undermine
	49			50
1	Post Office credibility and possibly historic cases if	1		to have been removed before it was sent to the Post
2	it could be shown that a discrepancy could be caused by	2		Office; do you agree?
3	a system error rather than a postmaster/clerk action.	3	۵	l agree that's what this says, yes.
4	Most importantly the central database as the system of	4	Q.	
5	record would be called into question'. As discussed,	5	ч.	that exchange was sent on to you?
6	there is no need to paint this in the worst possible	6	۸	Yes.
7	light. I would suggest the following as being accurate	7		Do you know why you were being told that the report had
8	without being unduly alarmist"	8	ч.	been edited to remove the section that said that this
9	Then the new drafting is:	9		discovery of the bug in Horizon Online might affect past
10	"If it could be shown that a discrepancy could be	10		historic cases
11	caused by a system error rather than a postmaster/clerk	10	۵	I don't think sorry
12	action, it could potentially call into question the	12		was going to be removed in the version that was being
13	effectiveness of the central database as a system of	12	α.	sent to the Post Office, why that chain was being sent
14	record."	13		
14	If we scroll up, please:	14	^	to you? I would have taken that as just being sent the latest
16	"After review with Legal two amendments have	16	А.	version of the document, rather than taking any notice
17	been made to the documents and the sections have	10		of the of that particular discussion.
18	been removed as they do not materially add to the	18	0	Not because they knew that you were giving evidence
		10	ω.	
19 20	primary purpose of the review which is to determine			about past historic cases?
20	whether the solution, as designed, would protect data	20	A.	Not that I thought of at the time.
21	integrity.	21	Q.	
22 23	"Version 3 has been sent to Dave Smith, Post Office."	22 23	315	WYN WILLIAMS: Mr Beer, have I got this right: this
23 24	So this seems to record that the sentence about data	23 24		seems to have been a period of, what is it, seven or
<u>~</u> +	So this seems to record that the sentence about data			eight months, between the exchange about the contents of
25	integrity affecting possibly past historic cases appears	25		the document and it actually being forwarded to Mr

(13) Pages 49 - 52

1	MR BEER: No, this is one of those dates where it has been						
2	Americanised. That's actually						
3	SIR WYN WILLIAMS: I see. It's actually the other way						
4	round						
5	MR BEER: 11 March.						
6		WYN WILLIAMS: 11 March, okay, fine.					
7	WR	BEER: Can we go forwards, please, to FUJ00142152.					
8 9		This is a further report of yours, a few days later, 12 February 2010, ie a few days later than the Derby bug					
9 10		issue report, okay?					
11	Α.	The original one. I mean, the one you just showed me					
12		was March but the original probably yes, yes.					
13	Q.						
14	ч.	another bug which resulted in final balances for branch					
15		trading statements being inaccurate?					
16	Α.	Yes.					
17	Q.	This was first reported at the Post Office in Warwick;					
18		is that right?					
19	Α.	I believe so, yes.					
20	Q.	If we look at FUJ00094268, and the third page of that,					
21		we'll see that you sign off an email there and, if we					
22		scroll up, please, is this is an email discussion					
23		between you and others about the issue that we've just					
24		looked at in that report, ie a bug resulting in trading					
25		statements being inaccurate?					
		53					
1		fix this problem. We certainly could not leave that					
2		problem unfixed for Horizon Online to move forward and					
3		be rolled out, and so, therefore, it was important that					
4		the problem did get fixed, which it did.					
5	Q.	Did you know at this time that, at least since the Lee					
6		Castleton case, the Post Office relied on the implicit					
7		accuracy of Branch Trading Statements when bringing					
8		civil claims against subpostmasters?					
9	Α.	I'm not sure that I was really had any distinction					
10		between civil or non-civil claims but I knew that the					
11		Branch Trading Statements, once that came about as part					
12		of IMPACT, was the effectively the legal document					
13		that was used to say that the accounts had been signed					
14		off.					

15 When this bug arose, did you consider the possibility Q. that there may have been other bugs which affected the 16

- accuracy of Branch Trading Statements? 17
- A. I thought -- I could see that this bug was causing 18
- a problem in the accuracy of that part of the Branch 19
- 20 Trading Statement report and felt that it was important to actually get the bug fixed. 21
- 22 Q. Did you consider the possibility of other bugs which
- 23 affected the accuracy of Branch Trading Statements?
- 24 Α. We would look for other bugs there and I'm not aware
- 25 that we actually ever found any other --

55

- I believe so, yes. 1 Α. 2 Q. If we scroll down, can you see a passage that's 3 indented, which says: 4 "Given the legal status of these reports (they 'the final' are often used in court proceedings when we are 5 6 trying to recovery monies from dismissed subpostmasters) 7 and the potential 'integrity' challenges that could be levelled against the [Horizon] system as a result of any 8 differences; POL need assurance from Fujitsu that they q 10 could/will explain the cause of the problem and prove 11 the system has integrity should we be challenged." That's not you speaking; is that right? 12 13 A. No, that's Phil Norton, I think it was, who was sent the 14 email. So, again, I've got his questions indented and my responses not indented. 15 16 Q. You say: 17 "I understand this, though I would have thought most legal proceedings would be based on the first part of 18 19 the report (which covers cash levels) rather than the 20 second part." 21 Irrespective of that answer, you were being told by 22 Mr Norton and being left in no doubt as to the 23 importance of the accuracy of the Branch Trading 24 Statements for legal proceedings. 25 Α. I was aware of that, and my approach was: we've got to 54 1 Q. Did you look for other bugs there? 2 Yes, we were looking for all sorts of bugs that could be Δ 3 happening during the pilot. That was the whole point of 4 the pilot. 5 Q. Can we move forwards, please, to FUJ00094235, and in 6 sheet 1, and row 20, please, can you see -- first of 7 all, do you know what this document is; do you remember 8 what the document is? 9 A. I think this is some sort of tracker of issues during the pilot of Horizon Online. 10 11 Q. Number 20, "BTS reports incorrect", the narrative, if
- you just read that to yourself. Can you see that, in --12
- 13 Α. Yes.

- Q. -- column I.
- 15 I'm so sorry, it's the one above. Thank you. So 16
 - you should really read column B and column I. (Pause)
- 17 A. Right. I can't remember that problem.
- 18 Is this another problem, a separate one from the two Q. that we've just looked at? 19
- Yes, this was a problem -- as part of the migration of 20 Α.
- 21 a branch from Legacy Horizon to Horizon Online, a report
- 22 was produced on the last day it was operating on Legacy
- 23 Horizon, which was giving effectively a snapshot of the
- 24 balance, and then another report was generated the
- 25 following morning showing, again, the snapshot of the 56

	In a Laura a a	l 4l	- 4		
1	balance,	and these	e two reports	s were com	pared. And this

- 2 looks likely to be some sort of issue in that comparison
- 3 but I can't remember the details of that particular
- 4 problem.
- 5 Q. It looks like it's a discrepancy bug where stock
- 6 movements weren't included in the receipts part of the 7 stock units balance report?
- 8 **A.** I -- sorry, I just can't remember the detail. I can see
- 9 that's what the words say but I cannot remember this10 particular problem.
- Q. The words say that the data that was "included in
 Horizon was incorrect", whereas the data shown in
 Horizon Online is incorrect --
- 14 **A.** That --
- 15 Q. -- sorry is correct.
- 16 A. That suggests to me that there was a problem in the
- 17 report that was produced on the Horizon side, on the
- 18 date before we migrated, but the data that was on the
- 19 Horizon Online version was actually accurate and,
- 20 therefore, there would be a mismatch between the two
- 21 reports, and the reason for the mismatch was because the
- 22 data had been calculated inaccurately on the Horizon
- 23 side, but it was correct on the Horizon Online side, is
- 24 what I think I'm reading from this.

25 **Q.** I see.

57

- 1 assuming that, as part of the migration process, some
- 2 sort of alert would have been raised if the reports
- 3 didn't match and so the purpose of the KEL was that if
- 4 those reports didn't match and it was down to this
- 5 particular reason, then it would then be known about,
- 6 and therefore understood. But --
- 7 Q. You're assuming a lot there?
- 8 A. I am assuming a lot, but to say more than that I would
 9 need to go back to the individual PEAKs.
- 10 Q. Do you recall making any checks to see whether this bughad affected the West Byfleet branch?
- 12 A. That wouldn't have had any impact. I wouldn't have made13 any checks because this would have had no impact on the
- 14 West Byfleet branch because that was still running on
- Legacy Horizon. This was purely a migration issue, thisone.
- 17 Q. Did it affect the data that was moved over to Horizon18 Online?
- 19 A. I don't believe so, no.
- 20 Q. What was, on your understanding, the impact of the bug,21 then?
- 22 A. It was purely to do with the contents of the report
- 23 produced before and after the migration.
- 24 Q. A Branch Trading Statement report?
- 25 **A.** No, this was a migration report, so it wasn't a Branch 59

- 1 A. But, as I say, I think I would need to do further
- 2 research to say anything more than that.
- 3 Q. So it seems like it's a problem with Legacy Horizon,4 rather than Horizon Online?
- 5 **A.** It's a problem with the reporting of the situation on
- 6 Legacy Horizon, so I don't think it's actually a problem
- 7 in Legacy Horizon, as such, it's purely in the way that
 - that report is being generated. There was a special
- 9 report that was produced as part of the migration10 process, I believe.
- 11 ${f Q}$. You'll see that the recommendation on the right-hand
- 12 side, under "17 February 2010", is not to fix the
- 13 error --
- 14 **A.** Yes.

- 15 Q. -- and, instead, to raise a KEL for coverage. What does
- 16 that mean, "KEL for coverage"?
- 17 A. I don't know, is the simple answer.
- 18 **Q.** Was that an expression used, "raise a KEL for coverage"?
- 19 A. I've not heard of that expression before.
- 20 **Q.** Then a KEL is issued and then it's closed.
- 21 A. Yes. As part of the migration process, there was
- 22 an automated check made of the electronic versions of
- 23 these reports because they're printed in the branch, but
- 24 there was a -- it was stored away. So there was
- a comparison, a before and after report. So I'm 58
- 1 Trading Statement -- you didn't -- it was decided that 2 it was not sensible to actually get branches to actually 3 produce a Branch Trading Statement on the day they 4 migrated, because that would restrict very much the rate 5 at which migration could take place. So there was just 6 a snapshot that was produced at the time that the 7 branches migrated from Legacy Horizon to Horizon Online. 8 Q. Thank you. That can come down. 9 So when, in early March 2010, you signed your third 10 witness statement in Seema Misra's case, you knew about 11 a bug in Horizon Online that had affected system 12 created, system generated discrepancies. You knew about the so-called Warwick bug, which resulted in inaccurate 13 14 Branch Trading Statements in Horizon Online, and that 15 there was a stock unit discrepancy bug in which affected 16 migration reports. You didn't reveal any of those three 17 things in your witness statement, did you? 18 A. But as I said before because I thought they were totally 19 irrelevant 20 Q. But you, in that paragraph we looked at, were you trying 21 to answer Mr Tatford's general question about known bugs 22 in Horizon? 23 A. I was trying to address problems -- I assumed he was 24 referring to Legacy Horizon, as it operated at the time
- 25 that Mrs Misra was operating the branch in West Byfleet.

1		part of 2010, and look at FUJ00156217.
2		If we go to the last page, please, and then if we
3		just scroll up. You're talking here about a PEAK and is
4		it SYSMAN or SYSMAN3 Events?
5	Α.	SYSMAN is how I'd call it, it's short for "system
6 7	~	management".
7	Q. A.	What was this, the System management 3 events? Basically NT events. So Legacy Horizon used a subsystem
8 9	А.	called SYSMAN2, whilst Horizon Online had a slightly
9 10		different version of the technology which was called
11		SYSMAN3.
12	Q.	Thank you. If we scroll up, please, and if we keep
13	ч.	going and keep going. Thank you, just stop there.
14		You're emailing Penny Thomas and others, saying:
15		"Steve Porter has had a look at these events and
16		his responses are below."
17		I'm not going to go to those responses. You say:
18		"Unfortunately they are a bit inconclusive, but
19		there is nothing that is obviously suspicious.
20		"Given that this relates to [Horizon Online] in
21		March, [then you say this] then we do know that there
22		were a number of potentially serious issues around at
23		that time, so we would need to be wary about making any
24		witness statements associated with such data. However
25		it should be fine to pass the data to [Post Office] with
		62
1		about making witness statements associated with such
2		data", the potentially serious issues around that time,
3		do those include the three bugs that I've drawn to your
4		attention this morning?
5	Α.	Yes, I would certainly not have been happy about any of
6		that data from that pilot period being used in any
7		sort anywhere near a prosecution because the system
8		was not stable at that time.
9	Q.	So "wary about making witness statements", means what:
10		"we should not make a witness statement relying on such
11		data"?
12	Α.	Yes, basically.
13	Q.	"We should tell the Post Office that you should not
14		confidently prosecute anyone in reliance on such data"?
15	A.	That was my feeling at the time, yes.
16 17	Q.	Thank you. Did you consider whether that kind of
17 18		sentiment or view ought to have been revealed when you
19		were making your witness statements in the Misra case, "look, it can happen in the operation of the Horizon
20		system that data is produced upon which reliance by
20 21		a court should not be placed"?
21	Α.	No, because this was a totally different circumstance.
23		Here we were talking about a pilot of Horizon Online
24		whilst, by the time the time period we're talking
25		about for Mrs Misra's case, then we actually had what
		64

(16) Pages 61 - 64

3

1	-	I felt was a stable system.
2	Q.	Thank you. Can we turn to a separate issue: the
3		duplication of transaction records contained in ARQ
4		data?
5	A.	Yes.
6	Q.	Can we start by looking at FUJ00097058. This is
7	•	a document, I think you know, authored by Penny Thomas?
8	A.	Yes.
9 10	Q.	Its date is 22 June 2010 and it records duplicate record
10 11		issues in ARQ returns. Can you explain, in layman's
12	Α.	terms, what the problem was? Yes, when ARQ data was being collected from Legacy
13	Α.	Horizon, there were certain circumstances in which we
13		might record the same transaction more than once into
15		the audit server. So there could be multiple copies of
16		the same message recorded in the audit server. And the
17		way in which ARQ data was extracted from that, in terms
18		of producing the spreadsheets, on Legacy Horizon
19		discarded these duplicates.
20	Q.	It was supposed to discard it?
21	Α.	On Legacy Horizon, it did.
22	Q.	Yes.
23	Α.	What we had here was, when we moved to Horizon Online,
24		from the same raw data, we had a different mechanism for
25		extracting the ARQ spreadsheets and it was found that
		65
1	Q.	So that's an additional problem on top of the problem?
1 2	Q. A.	So that's an additional problem on top of the problem? No, this isn't for a problem at all.
2	Α.	No, this isn't for a problem at all.
2 3	A. Q.	No, this isn't for a problem at all. Right.
2 3 4	A. Q.	No, this isn't for a problem at all. Right. What this is all to do with is if you actually look at
2 3 4 5	A. Q.	No, this isn't for a problem at all. Right. What this is all to do with is if you actually look at the data without taking account of the NUM, you may have
2 3 4 5 6	A. Q.	No, this isn't for a problem at all. Right. What this is all to do with is if you actually look at the data without taking account of the NUM, you may have things that look like they're identical data but they
2 3 4 5 6 7	A. Q.	No, this isn't for a problem at all. Right. What this is all to do with is if you actually look at the data without taking account of the NUM, you may have things that look like they're identical data but they aren't actually genuine duplicates sorry, they are
2 3 4 5 6 7 8	A. Q.	No, this isn't for a problem at all. Right. What this is all to do with is if you actually look at the data without taking account of the NUM, you may have things that look like they're identical data but they aren't actually genuine duplicates sorry, they are not duplicates, they are actually two real records that
2 3 4 5 6 7 8 9	А. Q. А.	No, this isn't for a problem at all. Right. What this is all to do with is if you actually look at the data without taking account of the NUM, you may have things that look like they're identical data but they aren't actually genuine duplicates sorry, they are not duplicates, they are actually two real records that look almost identical.
2 3 4 5 6 7 8 9 10	А. Q. А.	No, this isn't for a problem at all. Right. What this is all to do with is if you actually look at the data without taking account of the NUM, you may have things that look like they're identical data but they aren't actually genuine duplicates sorry, they are not duplicates, they are actually two real records that look almost identical. If we go to point 6, please if we just go back up:
2 3 4 5 6 7 8 9 10	А. Q. А.	No, this isn't for a problem at all. Right. 67

- the mechanism that was used for generating the ARQ
- spreadsheets that was now in use with Horizon Online did
- not detect and discard these duplicates that were in the
- 4 raw audit trail.
- 5 Q. Thank you. If we just scroll down, please, numbered
 point 1 identifies the issue as urgent in "CS prayers";
 what were they?
- 8 A. It was a regular meeting. So "CS" stands for Customer
 9 Services
- 10 **Q.** Okay, so a morning type meeting?
- 11 A. Yes. They used to be referred to as "prayers", I'm not
- 12 quite sure why, but it was really a case of
- a get-together first thing in the morning to work out
- 14 what the agenda of the urgent issues for the day was.
- 15 **Q.** I think we see in numbered paragraph 4, a separate issue
- was identified where a seemingly duplicated transactionhad a different NUM. That's some form of identifier; is
- 18 that right?

- 19 A. Yes, each record should have a unique identifier which
- 20 was actually in three parts. So there was the FAD code
- 21 for the branch, the counter position, and then a serial
- 22 number, which started at 1 when the branch was first
- 23 installed and, by this time, was up into the millions
- 24 probably, relating to the number of records that had
 - been produced for each counter.
 - 66
- Yes, it was, which is why I produced a separate witness
 statement explaining the problem.
- 3 Q. Why was the Post Office involvement necessary to ensurethat all instances were covered?
- 5 **A.** I think it was a case of doing a double check that we 6 knew exactly which ARQ returns were involved in
- 7 prosecutions because sometimes Post Office would ask for
- 8 ARQ data that wasn't relevant to prosecutions. So
- 9 I think it was -- Penny had done an analysis of all the
- 10 ARC returns that she'd done using this mechanism but she
- 11 wanted to get Post Office involved to make sure that she
- 12 hadn't missed any and understood which ones were the
- 13 high priority ones to sort out, so as to get some sort
- 14 of workload scheduling.
- 15 Q. So it wasn't the case Fujitsu could not identify allincidents?
- 17 A. No. Penny had, as I understand it -- as I say, I don't
- 18 have personal knowledge of that, but my understanding
- 19 was that she had good records of every ARQ that she had
- 20 ever extracted and when she produced it, and so on, and
- 21 she could go through those records. I think there is
- an email a day or two later where she actually producessome statistics.
- 24 Q. Can we look at FUJ00097047, and start at page 5, please.
- 25 We see that she sends her report we've just looked at --68

1		yes	1		explanat
2	Α.	Yes.	2	Α.	Yes.

- 1 explanation" for the Post Office.
 - **Q.** Did you suggest that explanation?
 - A. I believe so and, hopefully, that is pretty well what
 - l just said a few minutes ago.
- Q. If we scroll on. She says she wanted to speak with her counterpart in the Post Office, presumably --

8	Α.	Yes.
9	Q.	comments please. Then if we scroll back up, please,
10		to the next page, Guy Wilkerson asks:
11		"Would the additional transactions make any
12		difference to the charges for a subpostmaster?"
13		Then keep scrolling. She replies:
14		"These are original records which have been
15		duplicated when copying to audit server. We are not
16		suggesting that original records have been duplicated."
17		That, of course, is correct, isn't it?
18	Α.	Correct, yes.
19	Q.	"If analysis was undertaken on the audit data some
20		transactions would be duplicated; both plus and minus
21		(we hope!). Analysis on stock units could be out as TI
22		would show duplicated transfers and equally would TO."
23		What do both of those mean?
24	Α.	Transfer in and transfer out, so it's to do with
25		transferring cash between stock units.
		70

1		since the beginning of the year and, although not
2		an impossibility, it is unlikely that we would have
3		provided records for any cases heard in such a short
4		time frame. I can find no record of any witness
5		statement provided, apart from those listed we need
6		confirmation from POL; and guidance from Legal.
7		"All of the returns listed may not end up in court,
8		but we need to be aware that a significant amount may
9		need replacing."
10		If we go back down to your explanation, I don't
11		think that includes the point that was made originally,
12		that you had spotted, the problem with a duplicate with
13		a different NUM. Instead, it refers to the NUM as being
14		a reliable way to identify a duplicate, doesn't it?
15	Α.	I think you may have misunderstood what the other issue
16		was.
17	Q.	Okay.
18	Α.	The other issue was that you should get
19	Q.	That's completely possible, by the way.
20	Α.	Sorry?
21	Q.	That's completely possible.
22	Α.	Sorry. What the other issue was, where you would
23		actually get two transactions that were identical, apart
24		from their NUM, and therefore if you tried filtering
25		things out without looking at the NUIM, you might be

25 things out without looking at the NUM, you might be 72

1		filtering out things that weren't actually genuine
2		duplicates.
3	Q.	I see. So is that why that is not mentioned in this
4		section?
5	Α.	Yes. So, therefore, what it's saying there: the
6		reliable way of identifying the duplicate is to use the
7		NUM for the filtering, rather than by looking at the
8		text of what was presented in the ARQ.
9	Q.	Thank you. So, overall, would you agree this was
10		a serious problem?
11	Α.	Oh, yes.
12	Q.	Can we turn to things that you were saying at this time,
13		as a separate issue that can come down as perhaps
14		a way of understanding what was operative upon you at
15		the time. FUJ00152888.
16		Look at page 2, please. Can you see that you have
17		been reading through a report; can you see that?
18	Α.	Yes, I can see that.
19	Q.	Is that about Shoeburyness and Leigh-on-Sea?
20	Α.	I can't I thought this was to do with Porters Avenue
21		but I'm not I I don't recall this particularly.
22		All I can go by is the email that you showed me.
23	Q.	If we just scroll down, and again, please thank you:
24		"I have received a copy of an accountant's report
25		and attach."
		73
1		difficult to progress. The cost of such an analysis is
2		likely to be high. We did some similar analysis over
3		a two-month period for a defence accountant about a year
4		ago and were paid for it (Pete Sewell set it up Anne
5		did most of the hard work and I presented it to the
6		accountant). I think we need some management guidance
7		on this."
8		You say that this is "highly political".
9	Α.	Basically, what I meant it's not a technical issue; this

A. Basically, what I meant it's not a technical issue; this
 is something that management need to think about.

- 11 **Q.** Then you would say this is a management issue?
- 12 A. Yes, so that's basically saying that -- repeating my13 point.
- 14 **Q.** In what respect was it political?
- 15 A. It was to do in the way in which -- I'm not using
 16 "political" in terms of party politics, I just saw
 17 that -- when you --
- 18 Q. It means --
- A. -- "commercial" might have been a better term to use.
 It's to do with how Fujitsu interacts with Post Office.
- 21 **Q.** Okay, so it obviously doesn't mean high politics?
- 22 **A.** Oh, no, it's to do with the higher level communication
- 23 between the companies, which was not the sort of thing
- 24 I liked to get involved in, if I could help it.
- 25 **Q.** Why was it political in that sense?

1	Α.	Yes.
2	Q.	" and a statement from Phil Budd
3		"Please could you read the report and decide how to
4		continue; the request from the accountant, Charles
5		McLachlan suggests a telephone call"
6		Does that help or not?
7	Α.	Not really. As I say, I do remember looking at
8		something to do with Porters Avenue and I do remember
9		that Phil Budd had something to do with it. So that's
10 11		why I'm assuming this is to do with that but I can't
12		remember the context and I've certainly no recollection of what the report said and why I was concerned about
12		it.
14	Q.	If we go up to page 2, then, where we were thank
15	ч.	you you say:
16		"Penny,
17		"I've now read through this report. I agree that
18		there probably needs to be some further investigation
19		here. However I'm also aware that this is probably
20		highly political. Therefore I'm not sure how best to
21		address this. We don't really want to be seen to be
22		undermining a [Post Office] prosecution!
23		"I think the report does raise a number of questions
24		without a detailed analysis of the various transactions
25		over the period described (it's 6 to 9 months) it is
		74

1	defence expert and Post Office decided to ignore what
2	I'd said.

- 3 Q. Can we just focus on the question, please, Mr Jenkins?
- 4 A. Yeah.
- 5 Was it your state of mind at the time that you believed Q.
- 6 that Fujitsu should not be seen to be undermining a Post 7 Office prosecution?
- 8 A. Well, I was wanting guidance as to what exactly we 9 should be doing.
- 10 Why did you need guidance on whether or not Fujitsu Q. should just present the facts, irrespective of whether 11
- they supported or undermined a Post Office prosecution? 12
- 13 A. I just wanted to get some sort of guidance from senior 14 management as to any communication I had in this area
- 15 with Post Office and the guidance I got was to just tell
- 16 the truth, which is what I would like to have done 17 anvwav.
- 18 Did you need guidance from management --Q.
- 19 I wanted to make sure that I didn't undermine anything. Α.
- 20 Did you need guidance from management on whether you Q. 21 should just tell the truth or not?
- 22 Α. No, I didn't need guidance. I would just tell the truth 23 but I just wanted to make sure that I had -- I was being
- 24 covered by my management for any actions that I took.
- 25 Q. You needed top cover for telling the truth?

77

- 1 stage. It for just a case of comments on a report.
- 2 Q. Okay, so comments on a report --
- 3 Α. Yeah.
- 4 Q. -- a defence expert report.
- 5 A. Yeah.
- 6 Q. If your evidence wasn't influenced by the fact that you
- 7 were a Fujitsu man, why were you seeking management
- 8 guidance on what should be done if your answers might 9 undermine a Post Office prosecution?
- A. It was a case of whether my answers should be sent -- my 10 11 comments on the report should be sent through or not,
- 12 I suppose. As I say, I just cannot remember what the
- 13 issue was that I was concerned about in this case.
- 14 Q. When you gave witness statements and then subsequently 15 were asked questions and answered them in court, was
- 16 a factor operative on your mind the fact that you, on
- 17 behalf of Fujitsu, should not be seen to undermine
- 18 a Post Office prosecution?
- 19 Α. No.
- 20 Q. Because that's what the politics of the situation 21 demanded?
- 22 Α. No, certainly when it came to court, then that didn't --
- 23 that didn't come into it. I just wanted to understand
- 24 what I needed to do about my thoughts on this particular
- 25 report, which was not at that stage anywhere near

79

- I don't know what to say to that. Α.
- 2 Q. Why did you need management guidance on whether or not 3 Fujitsu should be seen to be undermining a Post Office
- 4 prosecution?
- A. I just wanted to get some sort of feeling as to how to 5 6 approach the response to the report.
- 7 Q. When you subsequently came to give evidence in the Misra
- 8 trial, very limited questions were asked about your --
- 9 the status in which you were giving evidence and the
- 10 duties of an expert witness, agreed?
- 11 A. Agreed.
- 12 Q. One of the only things that was asked was, in fact, by
- 13 the judge -- I'm not going to turn it up, I'm going to
- 14 read it.
- 15 A. No, I know what you --
- 16 Q. You know the question.
- 17 A. Yes.

5

- 18 Q. "Is there any question of your evidence having been
- 19 influenced by the fact that you're a Fujitsu man?" 20 You said no.
- 21 A. And I stand by that.
- 22 Q. If that's the case, why were you asking for management 23 guidance on whether or not the evidence that should be 24 given in response to a defence expert report --
- 25 Α. I don't think we were talking about evidence at this 78
- 1 a court, as I understood it.
- 2 Q. So are you saying that there's a material difference
- 3 between providing comments on a report in an email
- 4 chain, on the one hand, where you wouldn't wish to be
 - seen to undermining a prosecution, and then ultimately
- 6 providing a witness statement, when such impure motives 7 would have evaporated?
- 8 A. Yeah, I was just looking for guidance as to what 9 I should be doing in this particular circumstance.
- 10 **Q.** Did you get guidance as to whether or not you should 11 simply set out the facts, irrespective of whether or not
- 12 they supported or undermined a Post Office prosecution? 13 Α. Yeah, I think that would have affected the guidance
- 14 I got from David Jones the following week.
- 15 Q. Can we go forwards, please, to FUJ00156122 and look at 16
 - page 12, please. We're dealing with a different branch here, "Alresford large debt outstanding", and there's
- 17 18 a reference to an email trail below. I'm not going to 19 turn to that. You say:
- 20 "This I another example of postmasters trying to get
 - away with 'Horizon has taken my money'. Dave Smith

21 22 seems to have put me forward as the expert to help on

23 this.

- "How should I respond to his request?"
- 25 Does that reveal what your mindset was in February 80

1		2010 when you were conducting investigations into Seema
2		Misra's case and providing witness statements?
3	Α.	No, that is me very poorly trying to summarise what
4		was what I thought was being laid out in the email
5		trail below and I apologise for the wording that I used
6		there. But it was me trying to do a crude summarisation
7		of the email trail for management. I don't think I had
8		anything further to do with that particular case.
9	Q.	
10		in their emails when they say that what is recorded does
11		not reflect truly what they believed. Did you believe
12		that there were many examples of postmasters trying to
13		get away with "Horizon has taken my money"?
14	Α.	I can't remember what I believed.
15	Q.	Presumably
16	Α.	What I was trying to do was summarise the email trail
17	-	below.
18	Q.	Yes, but you say it's another example of it.
19		Presumably, it does reflect your mind at the time that
20		postmasters were trying to get away with "Horizon has
21		taken my money"?
22	Α.	Well, I didn't believe that there were any problems with
23		Horizon that was causing Horizon to lose money.
24	Q.	So you did believe that postmasters were blaming Horizon
25		by saying, "it's taken my money" falsely?
		81

25	subpostmasters jumping on a bandwagon which blamed
	83

1 A. 2 Q. 3 4 5 A. 7 8 9 10 11 12 Q.	I just wasn't thinking things through properly. Hold on. I think you said that you believed that
3 4 5 6 A. 7 8 9 10 11	Hold on. I think you said that you believed that
4 5 6 A. 7 8 9 10 11	
5 A. 7 8 9 10 11	Horizon was operating correctly, so this would
6 A . 7 8 9 10 11	accurately reflect your belief. Postmasters were trying
7 8 9 10 11	to get away with it by blaming on it Horizon.
8 9 10 11	I don't think I think the issues are actually much
9 10 11	broader than that. I think the issues are as much to do
10 11	with the way that they were the Post Office was
11	treating the postmasters and the support and the
	training they were getting, rather than actually
12 Q .	problems with Horizon, as such.
	Can we move on to POL00175839, and look if we scroll
13	down, please an email from you to Jarnail Singh on
14	1 March in the Seema Misra case:
15	"Thanks for the information, which I've now read
16	[it] through.
17	" I can summarise
18	"Ms Misra initially identified that the sub post
19	office was short of cash by about £80-£90,000.
20	"She tried to cover this up while she repaid the
21	losses which she thought was due to staff theft.
22	"By the time of the audit in January 2008 she was
23	£73,000 short suggesting she had made good about £10,000
24	of the losses.
25	"When she went to court, she saw an article in 82

	Horizon?
Α.	No, I did the analysis conscientiously all the way
	throughout.

3		throughout.
4	Q.	Did you see your role, as a Fujitsu man, to be to help
5		prove that Mrs Misra had jumped on the bandwagon and
6		that, to use the phrase from the other email, was trying
7		to get away with "Horizon has taken my money"?
8	Α.	As I say, I didn't think the problem was within Horizon;
9		I thought there were other reasons as to what had
10		happened and so my focus was looking at seeing whether
11		there were any problems with Horizon at that point,
12		rather than the broader focus of what the prosecutions
13		were about.
14	Q.	Can we look lastly on this topic, just to see whether we
15		find another tell as to what your state of mind was by
16		looking at FUJ00153115. This is an email of 15 June
17		about the Misra case, saying that you had had a call
18		from Professor McLachlan. I'm going to skip over the
19		first three or four paragraphs. In the penultimate
20		paragraph, you say to Penny Thomas:
21		"The good news is that he [Professor McLachlan] is
22		looking for problems in people's use of Horizon and not

- looking for problems in people's use of Horizon and not
 bugs in Horizon as such."
 Why was it good news that the defence expert was
 looking at people's use of Horizon and not looking at
 - 84

ffice Horizon IT	' Inq	uiry 27 June 2024
1		and your treatment of it, by looking at POL00029084. If
2		we scroll down, please, there. I'm afraid it's cut off
3		on the left-hand side of the page. I think we can
4		establish from other evidence that this is 28 September
5		2010. You say to Mark Wright what role did Mark
6		Wright perform?
7	Α.	He was in the SSC.
8	Q.	"The attached note summarises the problem"
9		The problem is in the title, "Receipts payments
10		mismatch issue".
11	Α.	Yes.
12	Q.	" and describes what we need to do to identify the
13		full scope of the problem and discuss with POL if/how we
14		fix the problem."
15		So you're attaching your lost discrepancies note
16	Α.	Yes.
17	Q.	which we're going to look at in a moment?
18	Α.	Yes.
19	Q.	You ask for feedback. You say:
20		"We probably need to formally raise this as
21		a problem with [the Post Office]. I'm not sure how this
22		is done We should then plan to do the initial
23		analysis [with Post Office] with a view as to scope and
24		then agree how to progress it."
25		Skipping a paragraph:
		86
1	Α.	No. And, in fact, the way that we eventually decided
2		was the simplest way of identifying it was through
3		events that were being picked up from SYSMAN and from
4		the databases, and events were being held longer.
5	Q.	So there was still a facility?
6	Α.	Yes.
7	Q.	But, in any event, you thought this had probably been
8		around since January 2010?
9	Α.	Yes.
10	Q.	Can we turn please to POL00028838, a document which
11		I think you'll be familiar with
12	Α.	Yes.
13	Q.	and with which the Inquiry has been familiar for
14		a number of months now. There appears to have been some
15		meetings between Post Office and Fujitsu about the
16		receipts and payments mismatch bug and this is about one
17		of them, this note was compiled. You, in your witness
18		statements, try to date this meeting, don't you?
19	Α.	Yes, I can see there were a number of meetings during
20		the week and I'm not sure exactly which or whether this
21		was just a summary of the problem based on all of the
22		meetings. I don't think I saw this note until 2018.
23	Q.	You were present at this meeting; can you see that?
24	Α.	I was present at some of the calls that we had during
25		that week, whether this is a note of a meeting or not,
		88

3		were.				
4	Q.	Were you pleased that his attention was not on bugs?				
5	Α.	Because I didn't think that there were relevant bugs at				
6		the time.				
7	Q.	Were you worried that, if he did divert his attention to				
8		the existence of bugs, he may have found some?				
9	Α.	No. I was concerned that I would be wasting time				
10		looking at other bugs that didn't actually apply, in the				
11		same way as we'd already discussed with Callendar				
12		Square.				
13	Q.	You thought that it was a waste of time looking for				
14		other bugs?				
15	Α.	Because I didn't think there were relevant bugs to be				
16		looked at because, as far as I was aware, the bugs that				
17		had occurred within Horizon had been fixed.				
18	Q.	That was all based, I think we established yesterday, on				
19		assumption and chat?				
20	Α.	Yes, but that was still my true belief at the time and				
21		still is.				
22	Q.	I think that's because you reject some of the judge's				
23		findings in the Horizon Issues trial?				
24	Α.	Yes.				
25	Q.	Can we turn to the receipts and payments mismatch bug				
		85				
1		"Jon is easily able to reproduce the problem in				
2		a development environment it is probably worth				
3		starting on the data extraction to ascertain the full				
4		scope of the issue ASAP since it has probably been				
5		around since day one"				
6	Α.	By that, I meant day 1 of Horizon Online.				
7	Q.	Yes, ie since January 2010?				
8	Α.	Yes.				
9	Q.	" and data more than 6 months old is being dropped				
10		from BRSS"				
11		Remind us, BRSS?				
12	Α.	I can't remember exactly what the acronym stands for but				
13		it was basically a copy of the live transaction database				
14		that was used for support purposes.				
		and the sees to express barbares				
15	Q.	So this was a relatively time critical task because the				
15 16	Q.					

A. Because that's where I thought the genuine problems

- A. It was being dropped off there, it wasn't being lost 17 18 altogether. It could still be retrieved using ARQ data
- or that, but it was available online through the BRSS. 19 20 Q. You say:
- 21 "... so the sooner we run the queries, the better."

1

2

3

bugs.

were.

- 23 **Q.** If data more than six months old was being dropped off,
- would that mean that there would be no way of knowing 24
- 25 how many branches were affected?

87

(22) Pages 85 - 88

1		is not 100 per cent clear.			
2	Q.	You, if we look at page 3, please, top paragraph:			
3		"The Receipts and Payments mismatch will result in			
4		an error code being generated which will allow Fujitsu			
5		to isolate branches affected by this problem, although			
6		this is not seen by the branches. We have asked Fujitsu			
7		why it has taken so long to react to and escalate			
8		an issue which began in May."			
9		Did you tell them that the problem began in May?			
10	Α.	I can't remember what exactly what I said in the			
11		meeting. I doubt I would have scoped it in that way.			
12	Q.	Because you thought that the problem had been around			
13		probably from day 1, ie January 2010.			
14	Α.	Yes, there was a fairly obscure set of circumstances			
15		which caused this problem, which is why it only occurred			
16		about 60-odd times across what was by then a whole			
17		estate of 12,000 branches. So it is quite possible that			
18		the first occurrence of the problem was in May, in that			
19		none of the branches had actually gone through that			
20		particular set of interactions earlier. But, if they			
21		had gone through that set of interactions before May,			
22		then they could have hit the problem. As I say, I can't			
23		remember now exactly when the first occurrence was but			
24		that's maybe where May comes from, I don't know.			
05	~				

25 Q. It's said that they -- that's Fujitsu -- will provide 89

1	Α.	Ah, that's right. Most of the other versions that I've
2		seen have been dated 28 September, so whether it's
3		how that differs. I'm not sure.

- 4 Q. Okay.
- 5 A. Probably not materially.
- 6 Q. Under the heading "Introduction", you discuss some
- 7 PEAKs, 765 and 263, and also 864, which is a duplicate of 263. You ask the question: 8 9
 - "Are these really duplicates? I'm a bit confused as
- 10 to which one to refer to. Can one be closed as
- 11 a duplicate of the other?"
- 12 Was that an issue that happened frequently, namely 13 multiple or duplicate PEAKs and some were closed in
- 14 order to keep only one open if possible?

A. I am not an expert on the process. You would need to 15 talk to the SSC people about that but my understanding 16 17 was that, if the same problem was raised for more than one branch, then the approach was just to have one PEAK 18 that actually controlled the issue, and there was 19 20 a mechanism within that PEAK of listing all the branches

- 21 that were affected by that issue and then closing other
- 22 PEAKs that are duplicates, so there was just one PEAK
- 23 which could actually sort out the result of the problem.
- 24 Q. In the paragraph underneath, just two lines from the
- 25 bottom of it, you say:

- 1 feedback on that issue in due course, ie "We are in
- 2 October now, why is it that we are being told about this
- 3 now?"
- 4 A. Yes, and I can't remember the circumstances as to why it
- was only at this point that the problem had actually 5
- 6 been discovered. My first involvement with it, as far
- 7 as I can remember, was at the end of September, so about
- a week before these calls with Post Office. 8
- 9 **Q.** The code fix is mentioned in the next paragraph.
- 10 Α. Yes.
- Q. Was it the case that, at this meeting, or as a result of 11
- these communications, Post Office was told that Fujitsu 12
- 13 had data from which it was possible to ascertain all of
- the branches that had been affected? 14
- A. That is my understanding. We certainly did have that --15
- 16 we certainly worked out that information at some point.
- 17 Exactly how that fits in with this meeting or not,
- 18 I can't remember the exact chronology.
- 19 Q. Now, we've seen that you authored a document about
- 20 correcting accounts for loss discrepancies. If we can
- 21 look at that, please, it's part of this package of
- 22 material, it's at page 6. We'll see this is your
- 23 document, correct --
- 24 A. Yes. I believe so.
- 25 Q. -- dated 29 September. 90
- 1 "... PEAK [765] is a Master PEAK to record all 2 affected branches ..." 3 A. That is really what I was trying to say, yes. 4 Q. There should be a master --5 A. There should be a master PEAK, yes, because there is no 6 point in investigating the same problem more than once, 7 once it has been established that it is the same 8 problem. Q. Was that something that was always done, ie when 9 10 a problem or issue or bug was reported, there was 11 a system in place to consolidate reports across Fujitsu 12 to collect together all reports relating to that problem 13 into a master PEAK? 14 A. That is what I understood was the way that things should 15 be working. I'm not sure that it always did work in exactly that way but that was how the process was 16 17 supposed to work, as I understand it. This wasn't my 18 process. 19 Q. Over the page to page 7. If we just scroll down, 20 please. At the foot of the page, you say in the box 21 immediately at the bottom of the page: 22 "Mark Wright has produced a list of 16 occurrences 23 of event 903 in the last 30 days. This needs to be 24 extended."
- 25 What was event 903; can you remember? 92

1	Α.	It was the primary symptom of this particular problem.
2		I can't remember the details more than that, I'm afraid,

- 3 now.
- 4 Q. Mr Wright, had found 16 occurrences of that problem, or
 5 symptom, in the last 30 days, and that needed to be
 6 extended. Do you mean --
- 7 A. So therefore I was saying you need to look back more
- 8 than 30 days ago, you need to look back at all
- 9 occurrences of this event going back to January 2010.
- 10 Q. Was that done?
- 11 **A.** Yes.
- 12 Q. How many were eventually detected?
- 13 A. I think at the end we found there were 64 occurrences in
- 62 branches but they hadn't necessarily all happened at
 this point because some of them -- the problem continued
 to occur until the code fix went in about two or three
- 17 weeks after this time.
- 18 Q. In the report overall there was an acknowledgement that
 19 subpostmasters may be unaware of the problem because
 20 there wasn't essentially a prompt to them to make them
 21 aware of it. Is that right?
- A. There wasn't an explicit prompt. If they had looked indetail at the branch trading statement, they would have
- 24 seen that there was a problem there but there wasn't
- 25 a message that actually popped up and said, "Yes, you've 93
- 1 the branch to report the problem. Also, if we do amend
- 2 the data to re-introduce the discrepancy, this will need
- 3 to be carefully communicated to the branches to avoid
- 4 questions about the system integrity."
- 5 A. We never did amend the data in the --
- 6 Q. Yes, just before you get that answer in too quickly, why
 7 would you, if you did amend the data, need carefully to
 8 communicate that to the branches, in order to avoid
 9 questions about system integrity?
- 10 A. Well, I can see that this was an important problem.
- 11 I didn't want to be amending the data in the branches,
 12 and we didn't amend the data in the branches --
- 13 **Q.** No, no, that's a different issue.
- 14 **A.** If it was --
- 15 **Q.** It --
- 16 A. If it was badly communicated, it could show that there17 were serious problems within the ongoing operation of
- 18 Horizon Online, and we clearly didn't want to do that,
- 19 so it wasn't a case of covering up; we just didn't want
- to have bad publicity for what was actually a veryisolated problem.
- 22 Q. That's not what this says. You wanted to avoid23 questions about system integrity, didn't you?
- 24 A. That was behind what I was trying to say at the time.
- 25 **Q.** Well, on this document, that's all that was behind what
 - 95

- got a problem".
- Q. So they would need to examine, very carefully, a branch
 trading statement -- to --
- 4 **A.** There was one figure in there which should always be
- 5 zero and, in this particular case, it wasn't.
- 6 Q. If we go over to page 8, please. At the bottom of the
 7 page, please, under "Communication with the Post
 8 Office", you say:
- 9 "Once we have the information [above] which will 10 enable us to identify the full scope ... we need to
- 0 enable us to identify the full scope ... we need to
- communicate this to the Post Office Limited through the
 problem management mechanisms. We will then need to get
- 13 Post Office to agree if and how we should be correcting
- 14 the data."
- 15 Why did you think there was a possibility that you16 might not correct the data?
- 17 A. We didn't correct the data in the branches. What we
- 18 actually did was we corrected the data in the Post
- 19 Office's back-end systems.
- 20 Q. "Post Office should also be able to check up on POLSAP
- 21 to confirm these discrepancies are still visible even
- though they have been lost in the branch.
 - "It should be noted that as discrepancies are
- 24 normally losses, then a lost discrepancy would [need to]
- 25 work in the branch's favour so there is no incentive for 94
- 1 you wanted to say. You wanted to avoid questions being
- 2 raised about the system's integrity, didn't you?
- A. I didn't think -- I didn't think there was anything
 fundamentally wrong and I wanted to ensure that things
 were actually communicated accurately.
- 6 **Q.** This isn't about the accurate or inaccurate
- 7 communication of information to branches, it's about
- 8 avoiding questions concerning the system's integrity.
- 9 That's your motive, isn't it?
- 10 A. No, my motive was to make sure the communications were11 done accurately.
- Q. Why didn't you say, "If we do amend the data, we must communicate that to the branches accurately"?
- 14 A. Perhaps that's what I should have said at the time.
- 15 But, as I say, I wasn't exploring every word that
- 16 I wrote in an internal document expecting it to be
- picked apart in the way that it's being picked apartnow.
- 19 Q. Apologies for picking it apart, I'm just trying to work20 out what was operative on your mind at the time.
- 21 A. Operative on my mind was that we didn't want to blow
- 22 this out of proportion. This was a relatively small
- 23 problem that was affecting a very small number of
- 24 branches and we didn't want to actually undermine the
- 25 overall system, which was working perfectly correctly in

1		many, many branches, and this was a problem that was
2		going to get fixed, and it was easily scoped and
3		identifiable.
4	Q.	But you didn't know any of that at this time. You told
5		us that there had only been a backward look for 30 days.
6		You thought this went back to January, rather than May.
7		You didn't know the extent of the problem at all
8	Α.	But I knew that
9	Q.	a limited problem affecting a small number of
10		branches that was easily fixed when you were writing
11		this sentence, did you?
12	Α.	I was aware that I had a fairly good idea what the
13		sort of scope was going to be. At this point, we'd
14		identified 16 branches, I could see that we would
15		identify a few further branches and, as I say, the
16		eventual figure was about 60-something.
17	Q.	I'm going to continue the picking apart, if I may. The
18		reason that you used these words was because that's what
19		you were thinking at the time, isn't it? It's not
20		a poor choice of words, it's not a choice of words that
21		was in error, it's not a choice of words that reflects
22		something that you didn't think. You wanted to avoid
23		questions about the Horizon system's integrity, didn't
24		you?
25	Α.	I don't think that's true but
		97
1		mismatch bug] could cause a loss of confidence in the
2		Horizon system by branches."
3		You were at this meeting; did you say that?
4	Α.	I don't know, is the simple answer. I don't think so
5		but I don't know.
6	Q.	Do you recall who did say that?
7	Α.	I have no recollection of whether this was one
8		meeting or a consolidated report of all the meetings,
9		have no idea. I remember being on conference calls
10		about the issue but what was said in detail on the
11		conference calls I've no recollection, I'm afraid.
12	SIR	WYN WILLIAMS: Was there any face-to-face meeting, as
13		
14		far as you can remember or were they all conference
15		far as you can remember or were they all conference calls?
	Α.	
16	Α.	calls?
16 17	Α.	calls? There were face-to-face meetings internally within
		calls? There were face-to-face meetings internally within Fujitsu but, in terms of communication with Post Office,
17		calls? There were face-to-face meetings internally within Fujitsu but, in terms of communication with Post Office, I think it was all conference calls.
17 18		calls? There were face-to-face meetings internally within Fujitsu but, in terms of communication with Post Office, I think it was all conference calls. WYN WILLIAMS: So this list of people we see at the
17 18 19		calls? There were face-to-face meetings internally within Fujitsu but, in terms of communication with Post Office, I think it was all conference calls. WYN WILLIAMS: So this list of people we see at the start of this document, which is both Post Office and
17 18 19 20		calls? There were face-to-face meetings internally within Fujitsu but, in terms of communication with Post Office, I think it was all conference calls. WYN WILLIAMS: So this list of people we see at the start of this document, which is both Post Office and Fujitsu, was there ever an occasion when you were all in
17 18 19 20 21	SIR A.	calls? There were face-to-face meetings internally within Fujitsu but, in terms of communication with Post Office, I think it was all conference calls. WYN WILLIAMS: So this list of people we see at the start of this document, which is both Post Office and Fujitsu, was there ever an occasion when you were all in the same room together discussing it?
17 18 19 20 21 22	SIR A. SIR	calls? There were face-to-face meetings internally within Fujitsu but, in terms of communication with Post Office, I think it was all conference calls. WYN WILLIAMS: So this list of people we see at the start of this document, which is both Post Office and Fujitsu, was there ever an occasion when you were all in the same room together discussing it? I don't believe so.
17 18 19 20 21 22 23	SIR A. SIR	calls? There were face-to-face meetings internally within Fujitsu but, in terms of communication with Post Office, I think it was all conference calls. WYN WILLIAMS: So this list of people we see at the start of this document, which is both Post Office and Fujitsu, was there ever an occasion when you were all in the same room together discussing it? I don't believe so. WYN WILLIAMS: Right, fine.

- MR BEER: Sir, it's just gone 12.20. 1 2 SIR WYN WILLIAMS: Yes. MR BEER: Can we break until 12.35, please? 3 SIR WYN WILLIAMS: Yes. 4 5 MR BEER: Thank you. 6 (12.22 pm) 7 (A short break) 8 (12.35 pm) 9 MR BEER: Good afternoon, Mr Jenkins, can we continue your 10 evidence by finishing off the receipts and payments 11 mismatch issue, and go back to POL00028838, please. Can we look, please, at page 2. 12 13 Can you see, in respect of this meeting, in relation 14 to which you're recorded as an attendee, under the 15 heading "Impact" at the bottom -- if that can be blown 16 up, please. Thank you. 17 "Impact "The branch appeared to have balanced, whereas in 18 19 fact they could have had a loss or gain. 20 "Our accounting systems will be out of sync with 21 what is recorded at the branch. 22 "If widely known, could cause a loss of confidence 23 in the Horizon system by branches." 24 Just stopping there, at the third bullet point: 25 "If widely known it [the receipts and payments 98 1 Α. I can't remember exact -- as I say, I thought it was 2 just one call. I've since seen suggestions that there 3 were two or three calls and I just can't remember the 4 details, I'm afraid. 5 Q. Was the outcome of the calls an agreement that, if the
- 6 problem was widely known, it could cause a loss of 7 confidence in the Horizon system by branches, as 8 recorded here?
- A. I don't know. My role in these calls was explaining 9 what the issue was technically, not in terms of -- and 10 11 understanding what it was that was going to be decided 12 in terms of how we fixed it moving forward. That was my 13 main focus. 14 Q. If a view was expressed in the call or calls, whether by
- 15 Fujitsu, including you, or by the Post Office, that if
- the receipts and payments mismatch bug was widely known, 16
- 17 it could cause loose of confidence by branches in the
- 18 Horizon system, did that fact, did that view, as
- expressed, affect your willingness to mention it in 19
- 20 court in the following weeks when you gave evidence?
- 21 A. No, it never occurred to me that it was relevant
- 22 because, as I said earlier, this was an issue with
- 23 Horizon Online, and where I was giving evidence was to
- 24 do with Legacy Horizon.
- 25 Q. The next bullet point, therefore, becomes relevant: 100

1		"Potential impact upon ongoing legal cases where
2		branches are disputing the integrity of Horizon data."
3		By this time, I think only two branches had been
4		identified in respect of which there were ongoing court
5		cases, correct?
6	Α.	l've no idea.
7	Q.	We looked at the report earlier, didn't we? One of them
8		was
9	Α.	That was in a different context. That was when we were
10		looking back at ARQ data back in June.
11	Q.	By this time, had any court cases been identified?
12	Α.	I don't know. I don't recall any mention of legal cases
13		as part of this discussion. That wasn't where I was
14		focused on. What I was concerned with at this point was
15		the technical aspects of this issue. I have no
16		recollection of discussion of legal implications of
17		this.
18	Q.	What, to your knowledge, ongoing legal cases were there?
19	Α.	I wasn't aware of any legal cases involved with Horizon
20		Online by that time.
21	Q.	No, it doesn't say Horizon Online, does it? It simply
22		says, "ongoing legal cases". You knew about one, didn't
23		you, a big one: Seema Misra's case?
24	Α.	Yes, but I didn't see it as being relevant to that and
25		I would not have taken it as being relevant in that
		101
1		subsequently seen, as part of the work with the Inquiry,
2		that there was discussion along those lines but, at the
3		time, I am not sure that I'd have even noticed that sort
4		of thing being mentioned. I was concerned about the
5		technical aspects of this problem.
6	Q.	So if it was discussed at a call or calls that the bug
7		had an impact or potential impact on ongoing legal
8		cases, that wouldn't have affected your willingness or
9		otherwise to mention it in the Seema Misra case?
10	Δ	No because so far as I was concerned it was totally

- A. No, because, so far as I was concerned, it was totally
 irrelevant. Now, if someone had then come and said
- 12 I should mention it, I would probably have argued
- 13 against it. But if they said "No, you've got to do it
- 14 for legal reasons", then, obviously, I would have done.
- Q. We know, in fairness to you, that you had disclosed it
 in your note of 28/29 September 2010, and we know that
 that was forwarded to Post Office Legal, Jarnail Singh?
- 18 A. Yes, I have learnt that as part of the work I've done19 for the Inquiry, yes.
- 20 Q. The last bullet point:
- 21 "It could provide branches with ammunition to blame22 Horizon for future discrepancies."
 - Do you recall who said that?
- 24 A. No, I don't, I'm afraid.

25 Q. Whether that was somebody from Post Office or Fujitsu? 103

- 1 that statement was referring to that at all.
- 2 Q. What ongoing legal cases were there concerning Horizon3 Online?
- 4 A. I don't know. I wasn't aware of any.
- 5 **Q.** Were there, were there any at all?
- 6 A. I don't know. I don't understand the context of that.
- 7 I mean, I understand now what the context of that is
- 8 but, at the time, I wouldn't have known what that was
- 9 about and I'm not sure if I'd even have noticed if
- 10 anyone said anything along those lines.
- 11 Q. Did you say that: that the bug has a potential impact on ongoing legal cases?
- 13 **A.** No.
- 14 Q. Who said that?
- 15 A. I've no idea. As I say, I don't even remember hearing
- that being said. It's clearly recorded there in theminutes.
- 18 **Q.** You agree that it's a record in this document of the
- 19 receipts and payments mismatch bug, having a potential
- 20 impact upon ongoing cases. Given the start date of
- 21 Horizon Online, you would have known at this time that
- 22 the likelihood of there being any ongoing legal cases
- 23 involving Horizon Online was minimal or even zero?
- 24 A. I've no recollection of there being a discussion about
- 25 legal cases as part of the -- these exchanges. I've 102
- 1 A. I've no idea I'm afraid, sorry.
- 2 Q. Do you agree these three bullet points taken together
- 3 seem to reflect a concern about the disclosure of the
- 4 receipts and payments mismatch bug, in that it would5 have undesirable consequences?
- A. I can understand that now but, as I say, I don't think
 I was conscious of that sort of discussion as part of
- 8 the meeting at the time.
- 9 Q. Can we go forward, please, to page 3. We can see the
- 10 solutions, and I think you'll be familiar with these?
- 11 A. Yes.
- 12 Q. If we scroll down -- thank you -- which one did you13 support?
- 14 A. Where it was sorted out in the back end. So I think
- 15 that's Solution Two, isn't it --
- 16 **Q.** Two.
- A. -- where it gets journalled in POLSAP. And that was theone, I believe, that was eventually done.
- 19 Q. The first and the third solution are said to have moral20 implications, the first because it would involve
- 21 changing branch data without informing the branch and
- 22 the third, moral implications to the integrity of the
- 23 business; can you see that?
- 24 A. Yes, I don't remember the term "moral implications"
- 25 being used there but, certainly, it was -- I was always 104

2

- 1 favouring the second option, doing things in the back
- 2 end. I felt that was the right way of doing things and,
- 3 as I say, that was what was eventually done.
- Q. The first solution was said to have significant data 4
- 5 integrity concerns and could lead to questions of
- 6 tampering with the branch system and could generate
- 7 questions about or around how the discrepancy was 8 caused. Is that because this would involve Fujitsu
- 9 manually writing values into branch accounts?
- 10 Α. That is how that would have been done and I was against doing that. 11
- Why were you against doing it? 12 Q.
- Because I think it was the wrong thing to do. It was 13 Α. much better to actually sort things out through 14 15 a business process that was there in the back end of 16 journalising the entries in POLSAP. 17 Q. That discussion revealed, of course, that the facility 18 was available to Fujitsu, a form of remote access? 19 A. I wouldn't call that a form of remote access, as such. 20 I think I -- because what we would have had to do is we 21 would have had to develop a specific bit of code to 22 actually make those sort of changes to those affected
- 23 branches and so it wouldn't have been using any of the
- 24 regular remote access type facilities that we had. So
- 25 it would have been a special bit of code that would have 105
- 1 "Most problems manifest themselves so they can be 2 visible. So, for example, if there was some problem 3 with balancing and so on, then that -- that I would 4 expect to be investigated to see whether there was 5 an underlying problem as a result of it." 6 The question that you were asked, "Are there 7 problems that a subpostmaster at the Post Office is 8 going to be unaware of?", you say, "Most problems 9 manifest themselves so they can be visible". 10 A. Yes. Q. A month earlier, you'd been dealing with a problem that 11 didn't manifest itself in an obvious way to the 12 13 subpostmaster. 14 A. It did manifest itself, it was visible. If you actually read thorough the BTS, there was a non-zero entry in the 15 16 BTS where there should be a zero entry. Q. I think you had said already that that's if you examine 17 them carefully --18 19 Α. Yes. 20 Q. -- or a similar phrase? 21 A. Yes 22 Q. Was your reason for not mentioning that here because
- 23 that was to do with Horizon Online and you thought you 24 were answering questions only about Legacy Horizon?
- 25 I was certainly thinking I was only talking about Legacy Α. 107

- been developed and tested specifically for that purpose. But, again, that wasn't the way that we went.
- 3 Q. Was consensus reached on that in the meeting?
- A. I can't remember the actual discussion but it was 4
- certainly Solution Two that was done, going forward, in 5
- 6 terms of actually sorting things out at the back end.
- 7 I can't remember the discussions behind it and how long
- 8 those discussions were.
- 9 Q. Thank you. Can we move on, please, to the evidence that 10 you gave at trial, by looking at POL00029406. Can you
- 11 see this 14 October 2010 at the Crown Court at
- 12 Guildford. If we scroll down, it's a transcript of the
- 13 proceedings --14 Α. Yes
- 15 Q. -- and it's a transcript of your evidence. 16 If we go forward to page 123, please, and just go
- 17 down at H. At the foot of the page, thank you.
- 18 Re-examination, so that's questions at the end of your
- 19 evidence session, being asked by the prosecution
- 20 barrister, Mr Tatford. He says:
- 21 "Are there problems that the subpostmaster at the

106

- 22 Post Office is going to be unaware of?"
- 23 Can you see that?
- 24 Α. Yes.
- 25 Q. You say:

1		Horizon.
2	Q.	Does that answer apply across the transcript
3	Α.	Yes.
4	Q.	that, even if questions are asked of you in a broad
5		way, like that one was, which wasn't specifically about
6		Legacy Horizon, you thought you were talking and only
7		talking about Legacy Horizon?
8	Α.	Yes.
9	Q.	Can I turn to the extent to which you were asked to
10		consider wider issues when you were providing your
11		witness statements and giving evidence, and just start
12		by looking at your witness statement, your third witness
13		statement, at page 125. This is just what you say at
14		the end of paragraph 369, the last four lines. You're
15		dealing here with the event timeout locking issues and
16		you say, in the last four lines:
17		"Nor have I seen any emails that suggest my raising
18		these event timeout/locking issues prompted anyone
19		within [Post Office] or Fujitsu to ask me to provide
20		a witness statement about any other past problems that
21		had affected Horizon."
22	Α.	Yes.
23	Q.	By that, are you saying that you don't more generally
24		recall being asked to provide a witness statement about
25		any past problems that had affected Horizon?

1	А.	Yes, I think that's what I was saying. What I thought
2		I was being asked to look at and what I think I was
3 4		looking at was specific problems at the specific branch,
4 5		and I found no evidence of any specific problems at the branch. I had raised with people within Post Office the
6		fact that I was aware of problems that didn't affect
7		that branch, and no one said, "Oh, in that case, you
7 8		
9		need to talk about it and put it in your witness statement".
9 10	Q.	You say, therefore, that you don't think you were being
11	ω.	asked to provide witness statements or a witness
12		statement about any past problems that had affected
12		Horizon. Can we look back, please, at FUJ00122794.
14		FUJ00122794, and page 2, please and scroll down.
14		We looked at this email first thing this morning.
16		Jarnail Singh, and we see that you're copied, and
17		Mr Singh has said that points 2 to 4 haven't been
18		answered, and 3:
19		"When Gareth completes his statement could he also
20		mention whether there are any known problems with the
20		Horizon system that Fujitsu are aware of."
22		So you had been asked that very question.
23	Α.	And I'd responded to it at the time saying that until
23		I looked at the logs, I wasn't able to make a clear
25		statement, and then nothing further was actually done
25		109
1		route, rather than the lawyer's route:
2		"At a pre-court hearing today the judge has ordered
2 3		"At a pre-court hearing today the judge has ordered that all defence requests [be answered]."

Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had
2 3 4 5 6 7 8 9 10 11 12 13 14 15		"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16		"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	А.	"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you? Well, I didn't respond to that either way.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Q.	"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you? Well, I didn't respond to that either way. Well, let's just agree: you were asked the question
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19		"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you? Well, I didn't respond to that either way. Well, let's just agree: you were asked the question twice, weren't you, once through the lawyer's route and
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q.	"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you? Well, I didn't respond to that either way. Well, let's just agree: you were asked the question twice, weren't you, once through the lawyer's route and once through the investigator's route?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. A.	"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you? Well, I didn't respond to that either way. Well, let's just agree: you were asked the question twice, weren't you, once through the lawyer's route and once through the investigator's route? I'd not considered it in that way.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q.	"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you? Well, I didn't respond to that either way. Well, let's just agree: you were asked the question twice, weren't you, once through the lawyer's route and once through the investigator's route? I'd not considered it in that way. I know you say that you hadn't but the fact of the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. A.	"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you? Well, I didn't respond to that either way. Well, let's just agree: you were asked the question twice, weren't you, once through the lawyer's route and once through the investigator's route? I'd not considered it in that way. I know you say that you hadn't but the fact of the matter is, rather than you not being asked a question
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Q. A.	"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you? Well, I didn't respond to that either way. Well, let's just agree: you were asked the question twice, weren't you, once through the lawyer's route and once through the investigator's route? I'd not considered it in that way. I know you say that you hadn't but the fact of the matter is, rather than you not being asked a question about broader issues or problems with Horizon at all,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. A.	"At a pre-court hearing today the judge has ordered that all defence requests [be answered]." Then: "Gareth's statement needs to cover the following four points." Then do you see (3): "When Gareth completes his statement he should also mention whether there are any known problems with Horizon system that Fujitsu are aware of. If none could this be clarified in the statement." So, in fact, far from what you say in your witness statement that "Nobody had asked me to provide a statement about any other past problems that had affected Horizon", you were asked that very question twice, weren't you? Well, I didn't respond to that either way. Well, let's just agree: you were asked the question twice, weren't you, once through the lawyer's route and once through the investigator's route? I'd not considered it in that way. I know you say that you hadn't but the fact of the matter is, rather than you not being asked a question

about that. So I thought that that had been addressed. 1 2 Q. Well, let's break that down. In your witness statement, you said, "Nobody asked me to provide a statement about 3 any other past problems that had affected Horizon". 4 This is a request to do exactly that, isn't it? 5 6 A. I'd not considered it that way when I was putting 7 together the witness statement. Q. No, but looking at it now, it's a request to do exactly 8 that, isn't it? 9 10 A. I'd not seen it that way, but possibly. Q. So you'd been asked that question, the broad question of 11 known problems with Horizon, through the lawyer's route, 12 13 I'm going to call it, seen to you. Yes? 14 A. Yes. Q. Can we look, please, at FUJ00152902, page 2, please. 15 16 Can you see an email, Jon Longman to Penny Thomas --17 yes --Yes. 18 Α. 19 Q. -- on 1 February. If we just scroll up, just the bottom 20 of the page there, Penny Thomas to you: "Please see ... below; this is now extremely 21 22 urgent." 23 So you get forwarded this chain. 24 Go back to where we were, top of page 2, so Longman 25 to Thomas. I'm going to call this the investigator's 110 1 once through an investigator's email, hadn't you? It looks like it. 2 Δ 3 Q. Can we scroll up to what you replied: 4 "I've finally managed to go through the witness 5 statements [et cetera]. 6 "I don't know anything [presently] about Falkirk." 7 Then: 8 "I'm not aware of issues in Horizon other than the event timeouts. Not sure how to cover that in the 9 10 witness statement." A. Which is basically the same thing as I said to David 11 12 Jones later in the week. 13 Q. Well, firstly, do you agree that answer there in that 14 third paragraph is your response to the question, or the 15 request, to cover whether there were any known problems with the Horizon system that Fujitsu are aware of? 16 A. I think it probably was, yes. 17 Q. So that's a direct response to the broad question. You 18 were aware of issues in Horizon, other than the event 19 20 timeouts, weren't you? Not ones that were still outstanding. 21 Α.

- 22 Q. Is that what you say?
- A. I had assumed that as part of the context but I acceptthat I didn't spell it out.
- 25 **Q.** The context is framed by the question that you were 112

1		asked, "Are there any known problems with the Horizon	1	A.
2		system that Fujitsu are aware of?" That's talking about	2	
3		the operation of Legacy Horizon at the very least, isn't	3	Q.
4		it?	4	
5	Α.	I wasn't understanding the question that way but I can	5	
6		understand that that may have been what was meant.	6	
7	Q.	You say that this answer is supposed to read, "I'm not	7	
8		aware of any outstanding issues in Horizon, other than	8	
9		the event timeouts which have not been resolved". Why	9	
10		would you not say that, if that's the meaning that you	10	
11		now attribute to those words?	11	
12	Α.	I don't know, is the simple answer.	12	
13	Q.	That statement there is not true, is it, "I am not aware	13	
14		of issues in Horizon other than the event timeouts"?	14	
15	Α.	I was thinking of outstanding issues but I can accept	15	
16		that I have not qualified it correctly.	16	
17	Q.	So you were asked twice, once by Jon Longman and once by	17	
18		Jarnail Singh, explicitly to mention any known problems	18	
19		with the Horizon system. Why on both occasions have you	19	
20		applied a restrictive approach, rather than simply	20	
21		mentioning all of the problems that you were aware of?	21	
22	Α.	That was not how I'd understood the question but	22	
23		I accept now that I'd misunderstood the question.	23	
24	Q.	Or was it an unwillingness to reveal known problems with	24	
25		Horizon system?	25	
		113		
1		be authorised by a user of the Horizon system who is	1	
2		taking responsibility for the impact that such	2	
3		a transaction has on the branch's accounts."	3	
4		Then this:	4	Q.
5		"There are no cases where external systems can	5	
6		manipulate the branch's account without the users in	6	
7		branch being aware of what is happening and authorising	7	Α.
8		the transactions."	8	
9		That's not correct, is it?	9	
10	Α.	I was referring to the transaction corrections and	10	
11		external systems.	11	
12	Q.	You don't say that, do you?	12	Q.
13	Α.	I do say that external systems cannot manipulate the	13	
14		branch accounts, and the context of the question that	14	
15		I was referring to was to do with transaction	15	
16		corrections, and that's how I was understanding the	16	
17		scope of it.	17	
18	Q.	The month previously, you had been present on a call or	18	Α.
19		calls where, when discussing the receipts and payments	19	
20		mismatch bug, a solution was alteration of figures at	20	
21		accounts, at branch level, the local branch accounts.	21	
22		That was rejected because it would be done without the	22	
23		subpostmaster knowing about it and it therefore lacked	23	Q.
24		integrity.	24	
25	Α.	I don't think that was the only reason it was rejected.	25	Α.

Α.	I think it was a case of me misunderstanding the
Q.	question. Can I turn to the topic of your knowledge of remote
ч.	access before Seema Misra's trial by looking at
	FUJ00083737.
	This is, I think, your fifth witness statement,
	dated 8 October 2010. If we go forwards, please, to
	page 8, and if we scroll down, please. Thank you. Just
	back up again, so we get the whole of that paragraph.
	Thank you. You say:
	" in section 1.2.3 [that's of Professor
	McLachlan's report] there is the hypothesis that
	'External systems across the wider Post Office operating
	environment provide incorrect externally entered
	information to the Horizon accounts through system or
	operator error outside Horizon'."
	You say: "I was not quite clear what Professor McLachlan was
	referring to here. In the updated version of the report
	[he] has clarified this by adding 'For example,
	incorrect transaction corrections are submitted from the
	central systems for acceptance by the subpostmaster'."
	You continue:
	"However in my view this is not really relevant
	since any transaction that is recorded on Horizon must
	114
	I think it was rejected because it was a complicated way of doing things and it was much simpler to do things at
	the back end system.
Q.	But didn't that make it clear that external systems
	could manipulate the branch's accounts without the user
	being aware?
Α.	I wouldn't have called that external systems and
	manipulating accounts. That would have been a specific
	code change made to actually change the accounts, and it
	was not something that I would have been in favour of,
	and that didn't happen.
Q.	So wouldn't a full answer here have been, "There are
	facilities for remote access that I've known about since
	[I think you said yesterday] 2000 which are, in my view,
	theoretically available to alter branches' accounts. My
	understanding is they are used infrequently but that facility is there"?
A.	
Α.	I'd not understood that as being part of the question
	I'd not understood that as being part of the question.
	I thought we were talking about business as usual
	I thought we were talking about business as usual I think, in my fourth witness statement, I talk about
Q.	I thought we were talking about business as usual I think, in my fourth witness statement, I talk about business remote access, and that was the context that
Q.	I thought we were talking about business as usual I think, in my fourth witness statement, I talk about business remote access, and that was the context that I was taking this discussion to be in.

(29) Pages 113 - 116

1	Q.	Why did you think they were not relevant?	1		equ
2	Α.	Because I did not think that those had taken place in	2		of a
3		West Byfleet.	3		Mr I
4	Q.	Therefore, there was no necessity to tell the defence or	4		stat
5		the court about the facility for Fujitsu remotely to	5		do r
6		alter branch accounts without a subpostmaster's	6		syst
7		knowledge?	7		cou
8	Α.	That was where I was coming from.	8		
9	MF	BEER: Thank you.	9		him

21		West Byfleet branch. Can we start by looking at	21	Α.	And
22		FUJ00083737. This is your witness statement of	22		l be
23		8 October 2010. Can we turn to page 4, please. At the	23		rout
24		top of the page you say:	24		saic
25		"I understand there is a suggestion that the 117	25		wha
1	Q.	What was Mr Dunks' job?	1	Α.	No
2	Α.	He was part of the Security Team.	2	Q.	You
3	Q.	Had he got any expertise in the functioning of equipment	3	Α.	Yes
4		within branches, to your knowledge?	4	Q.	Did
5	Α.	I thought that he was experienced in analysing Helpdesk	5		a co
6		calls.	6		issu
7	Q.	Experienced in what, good at reading?	7		look
8	Α.	Yes.	8		issu
9	Q.	Can we turn to some of the Helpdesk calls then, please.	9	Α.	Tha
10		POL00061793. Do you recognise these as being the logs	10	Q.	Wh
11		from the Helpdesk for the branch?	11		ther
12	Α.	I recognise them as being that now, yes.	12		in th
13	Q.	Did you examine them at the time?	13		outs
14	Α.	No, I did not.	14	Α.	l wa
15	Q.	You've said in your witness statement, "I am not aware	15		that
16		of any fundamental issues", ie with equipment in the	16	Q.	Yes
17		branch. How were you able to say that you were not	17		it, b
18		aware of any fundamental issues?	18		fund
19	Α.	Because I'd read Mr Dunks' witness statement.	19	Α.	l'd r
20	Q.	Did anyone suggest that that was an appropriate thing to	20	Q.	Do
21		do, in answer to a question or a suggestion that there	21	Α.	Pot
22		was faulty equipment in the branch, you would read	22	Q.	lf w
23		somebody else's witness statement who said they'd read	23		plea
24		the logs, and therefore you form a qualitative	24		lf w
25		conclusion that there weren't fundamental issues? 119	25		l thi
		110			

1		equipment in the branch might be faulty. I am not aware
2		of any fundamental issues though this being covered by
3		Mr Dunks. Specifically, in his witness statement he
4		states that 'All the calls are of a routine nature and
5		do not fall outside the normal working parameters of the
6		system or would affect the working order of the
7		counters'."
8		By saying that, are you saying that you agreed with
9		him that all of the calls were of a routine nature, that
10		they didn't fall outside the normal working parameters
11		of the system or they wouldn't affect the working order
12		of the counters?
13	Α.	No, just quoting what he had said.
14	Q.	What was the purpose of quoting him?
15	Α.	I was really referring that to his level of expertise
16		rather than mine.
17	Q.	What expertise did he have in the malfunctioning of
18		equipment within branches?
19	Α.	Well, he had been examining the Helpdesk calls.
20	Q.	What
21	Α.	And that's really what I that's really what he
22		I believed that he had an understanding of what were
23		routine calls and, therefore, I was believing if he
24		said that they were of a routine nature, I was believing
25		what he said.
		118
1	A.	No one has suggested to me that that was inappropriate.
2	Q.	You just did that yourself?
3	а. А.	Yes.
4	Q.	Did it occur to you that, in order to give evidence to
5	ч.	a court as to whether or not there were fundamental
6		issues with equipment in the branch, you should actually
7		look to see whether there was evidence of fundamental
8		issues with equipment in the branch?
9	Α.	That was outside my area of expertise.
10	Q.	Why didn't you answer the question, "I understand
11	ч.	there's an issue with or a suggestion that the equipment
12		in the branch is faulty, or might be faulty. That's
13		outside my area of expertise", full stop?
14	^	
	Α.	I was just referring to Mr Dunks, who I thought had done
15 16	0	that sort of analysis.
16 17	Q.	Yes, but you allied with it, didn't you, by mentioning
17 10		it, by quoting from it and saying, "I'm not aware of any
18		fundamental issues"?
19	Α.	I'd not seen it that way at the time.

- you see it that way now?
- entially.
- e look at some of these Helpdesk records, then
- ase. Can we look at page 37, please, at the bottom.
- e just go to the bottom of the page, thank you,
- ink this is a record of a report on 2 May. Do you 120

1		see "Opened and closed", 2 May on the middle of the	1	
2		page, that's it. Thank you.	2	
3	Α.	Yes.	3	
4	Q.	The "Problem" text is:	4	
5		"Critical Alert Received at [then there's a date	5	
6		and a time]. Event description: A fatal error has	6	
7		occurred. A corrupt storage unit was detected on volume	7	Α.
8		%1 with LPN %2. Unit type %3 The message store will	8	
9		be shut down abnormally."	9	
10		Can you see that?	10	Q.
11	Α.	I can.	11	
12	Q.	Can you help us as to what that is?	12	Α.
13	Α.	That is sounding like a hardware problem on the disk at	13	
14		that time but that was out of hours but I don't think	14	
15		that would have caused any problem to the branch	15	
16		accounts because that would mean that Riposte just	16	
17		wouldn't be able to function. So the counter would	17	
18		effectively be dead, until either the message store was	18	Q.
19		deleted and recreated or the base unit swapped.	19	Α.
20	Q.	So a corrupt storage unit at the branch being detected	20	
21		and the message store was going to be shut down	21	Q.
22		abnormally?	22	
23	Α.	Yes.	23	Α.
24	Q.	If we go to the top of page 40, please, do you see the	24	Q.
25		entry at the very top:	25	
		121		
1		system?	1

zon IT	Inq	uiry 27 June 2024
1		"BASE UNIT SWAPS 'Warning!! Do not change the
2		mirror disk and PC together if you are in doubt
3		contact SMC or HIT'. 'Please can engineer print balance
4		snapshot and contact SMC to synchronise message store
5		before swapping out the base unit'."
6		Can you help us, what does that mean?
7	Α.	The simple answer is I don't know. That looks like some
8		sort of instruction to the engineers as to what they
9		need to do.
10	Q.	To print a balance snapshot and then synchronise the
11		message store; why would that be necessary?
12	Α.	I think it is to do with the case of where there's
13		a single-counter branch, where there is only one counter
14		with what's called a mirror disk, removable hardware
15		drive, and what's supposed to happen in those cases is
16		that the removable drive is supposed to put into the new
17		counter
18	Q.	This was a multiple counter branch though?
19	Α.	So, therefore, I don't think that's relevant to a branch
20		like West Byfleet, which had more than one counter.
21	Q.	Do you know why it would be recorded on a Helpdesk call
22		log?
23	Α.	No idea.
24	Q.	Is what we've read so far evidence that nothing happened
25		that fell outside the normal working parameters of the 122
1		The other one was to do with a comms cable. This is to
2		do with the a problem with the background process.
3	Q.	
4	Α.	I don't think so but I don't know.
5	Q.	
6		of something falling within or outside the normal
7		working parameters of the system?
8	Α.	From my experience, I wouldn't be able to tell one way
9		or the other.
10	Q.	It seems, over the next few pages I'm not going to
11		read them all in the interests of time but the base
12		unit was replaced because Mrs Misra's screen had frozen
13		on an error message which said, "Please wait whilst the
14		desktop connects to Riposte" and successive reboots had
15		failed to rectify the problem. Would that be the system
16		working within or outside its normal parameters?
17	Α.	Certainly, base units did fail occasionally and
18		therefore I would see that as being a normal sort of
19		occurrence.
20	Q.	Would you want to check data that happened at about that
21		time to see whether it was affect by the failure of the
22		base unit?
23	Α.	I didn't have data for that period. I was focusing my
24		attention on the time that I'd been asked to look at,
25		which was December 2006 to December 2007, and this was

which was December 2006 to December 2007, and this was \$124\$

1	before that time.	1		whether that would have been the appropriate response
2 Q .	Do you know why you didn't have data for the period of	2		the suggestion of faulty hardware on a continuing basis
3	the indictment, which was about two and a half years,	3		within the West Byfleet branch: you need to do both of
4	for the theft count?	4		those two things?
5 A .	The Post Office had I know now that Post Office had	5	Α.	I'm not aware of any such discussion.
6	decided that on the grounds of costs but, at the time	6	Q.	Can we turn to page 45 a few weeks later. This 17 June
7	then, I just knew that I'd been asked to look at data	7		2006, page 45. If we scroll down. 17 June, new call
8	for that period of 13 months.	8		taken, this is under the "Call Activity Log". Thank
9 Q .	One thing you'd want to do if you were examining these	9		you:
10	records is correlate the problems that are shown in the	10		" the online services are down, PM has"
11	Helpdesk to the transaction data to see whether there	11		Do you know what that abbreviation means?
12	was any connection between the two?	12	Α.	No, is the simple answer.
13 A .	I realise now that that is something that I should have	13	Q.	It looks like she was being told to reboot; is that sort
14	done. At the time, I was not aware that I needed to	14		of turning on and off again?
15	look at the Helpdesk calls and correlate them against	15	Α.	Yes.
16	the message store.	16	Q.	If this was the same error messages as Mrs Misra had
17 Q .	In your witness statement, you had said, we saw,	17		previously received, would that be evidence of the
18	"I understand there is a suggestion that equipment in	18		system working within or outside its normal parameters?
19	the branch might be faulty, I'm not aware of any	19	Α.	I think it was expected to be normal that you would get
20	fundamental issues, it's being covered by Mr Dunks".	20		occasional hardware failures in branches. I have had no
21	Did I not occur to you, "I need, on the one hand, the	21		experience of the of how often they occurred, and
22	Helpdesk data or the logs and, on the other, the	22		I was happy to rely on the fact that Andy Dunks had said
23	underlying data to correlate them and I've got neither"?	23		that the hardware failures in this branch were normal.
24 A .		24	Q.	If I carried on pointing out reports of hardware
25 Q .		25		failures in the branch going right up to December 2006, 126
1 2	including where a base unit replacement was necessary because the counter kept turning itself off in the	1 2		earlier. Can we look at page 58, please, at D, thank you. This is Mr Tatford asking you questions. He asks
3	course of transactions, your answer would be the same:	3		you:
4	you were relying on Mr Dunks; is that right?	4		" have you in your analysis of these just
5 A .	I think so, yes.	_		under helf a million transactional have you each any
		5		under half a million transactions, have you seen any
6 Q .	Did you consider the possibility that, on any one of the	5 6		
6 Q . 7	Did you consider the possibility that, on any one of the occasions where the engineer was replacing hardware,			sign, even the slightest symptom of any computer fault?
		6		sign, even the slightest symptom of any computer fault?
7	occasions where the engineer was replacing hardware,	6 7		sign, even the slightest symptom of any computer fault? "Answer: No, but then I've been doing very sort of
7 8	occasions where the engineer was replacing hardware, they may have failed to take necessary steps to synchronise the message store?	6 7 8		sign, even the slightest symptom of any computer fault? "Answer: No, but then I've been doing very sort of high level rough analysis on the stuff. But to find
7 8 9	occasions where the engineer was replacing hardware, they may have failed to take necessary steps to synchronise the message store? I didn't consider that.	6 7 8 9		sign, even the slightest symptom of any computer fault? "Answer: No, but then I've been doing very sort of high level rough analysis on the stuff. But to find to do any detailed investigation you need to have some
7 8 9 10 A .	occasions where the engineer was replacing hardware, they may have failed to take necessary steps to synchronise the message store? But to find to do any detailed investigation you need to have some sort of idea about a fault happened at that particular time." That was a reference to the ARQ data, the half a million transactions, wasn't it? Yes. I think you knew and you realised that the Post Office had only authorised the extraction of ARQ data for the period of the 1 December 2006 until 31 December 2007
7 8 9 10 A. 11 Q. 12 13 A. 15 Q. 16 17 A. 18 Q.	occasions where the engineer was replacing hardware, they may have failed to take necessary steps to synchronise the message store? I didn't consider that. That would be problematic, if they failed to do that, wouldn't it? But it would also probably have been very obvious at the time. On the data that you didn't have and therefore couldn't analyse? Yes. So, in answer to the question, what did you do to	6 7 8 9 10 11 12 13 14 15 16 17 18	Q.	sign, even the slightest symptom of any computer fault? "Answer: No, but then I've been doing very sort of high level rough analysis on the stuff. But to find to do any detailed investigation you need to have some sort of idea about a fault happened at that particular time." That was a reference to the ARQ data, the half a million transactions, wasn't it? Yes. I think you knew and you realised that the Post Office had only authorised the extraction of ARQ data for the period of the 1 December 2006 until 31 December 2007 13 months?
7 8 9 10 A. 11 Q. 12 13 A. 14 15 Q. 16 17 A. 18 Q. 19	occasions where the engineer was replacing hardware, they may have failed to take necessary steps to synchronise the message store? I didn't consider that. That would be problematic, if they failed to do that, wouldn't it? But it would also probably have been very obvious at the time. On the data that you didn't have and therefore couldn't analyse? Yes. So, in answer to the question, what did you do to respond to the suggestion that hardware faults at branch	6 7 8 9 10 11 12 13 14 15 16 17 18 19	Q. A.	sign, even the slightest symptom of any computer fault? "Answer: No, but then I've been doing very sort of high level rough analysis on the stuff. But to find to do any detailed investigation you need to have some sort of idea about a fault happened at that particular time." That was a reference to the ARQ data, the half a million transactions, wasn't it? Yes. I think you knew and you realised that the Post Office had only authorised the extraction of ARQ data for the period of the 1 December 2006 until 31 December 2007 13 months? Yes.
7 8 9 10 A. 11 Q. 12 13 A. 15 Q. 15 Q. 16 17 A. 18 Q. 19 20	occasions where the engineer was replacing hardware, they may have failed to take necessary steps to synchronise the message store? I didn't consider that. That would be problematic, if they failed to do that, wouldn't it? But it would also probably have been very obvious at the time. On the data that you didn't have and therefore couldn't analyse? Yes. So, in answer to the question, what did you do to respond to the suggestion that hardware faults at branch were persistent and affected balancing, is that you	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q.	sign, even the slightest symptom of any computer fault? "Answer: No, but then I've been doing very sort of high level rough analysis on the stuff. But to find to do any detailed investigation you need to have some sort of idea about a fault happened at that particular time." That was a reference to the ARQ data, the half a million transactions, wasn't it? Yes. I think you knew and you realised that the Post Office had only authorised the extraction of ARQ data for the period of the 1 December 2006 until 31 December 2007 13 months? Yes. The indictment period, did you understand, was the
7 8 9 10 A. 11 Q. 12 13 A. 13 A. 14 15 Q. 17 A. 18 Q. 19 20 21	occasions where the engineer was replacing hardware, they may have failed to take necessary steps to synchronise the message store? I didn't consider that. That would be problematic, if they failed to do that, wouldn't it? But it would also probably have been very obvious at the time. On the data that you didn't have and therefore couldn't analyse? Yes. So, in answer to the question, what did you do to respond to the suggestion that hardware faults at branch were persistent and affected balancing, is that you relied on reading Mr Dunks' statement?	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. A.	sign, even the slightest symptom of any computer fault? "Answer: No, but then I've been doing very sort of high level rough analysis on the stuff. But to find to do any detailed investigation you need to have some sort of idea about a fault happened at that particular time." That was a reference to the ARQ data, the half a million transactions, wasn't it? Yes. I think you knew and you realised that the Post Office had only authorised the extraction of ARQ data for the period of the 1 December 2006 until 31 December 2007 13 months? Yes. The indictment period, did you understand, was the 29 June 2005 until 14 January 2008, in relation to the
7 8 9 10 A. 11 Q. 12 13 A. 14 15 Q. 17 A. 18 Q. 19 20 21 22 A.	occasions where the engineer was replacing hardware, they may have failed to take necessary steps to synchronise the message store? I didn't consider that. That would be problematic, if they failed to do that, wouldn't it? But it would also probably have been very obvious at the time. On the data that you didn't have and therefore couldn't analyse? Yes. So, in answer to the question, what did you do to respond to the suggestion that hardware faults at branch were persistent and affected balancing, is that you relied on reading Mr Dunks' statement? Yes.	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. A. Q.	sign, even the slightest symptom of any computer fault? "Answer: No, but then I've been doing very sort of high level rough analysis on the stuff. But to find to do any detailed investigation you need to have some sort of idea about a fault happened at that particular time." That was a reference to the ARQ data, the half a million transactions, wasn't it? Yes. I think you knew and you realised that the Post Office had only authorised the extraction of ARQ data for the period of the 1 December 2006 until 31 December 2007 13 months? Yes. The indictment period, did you understand, was the 29 June 2005 until 14 January 2008, in relation to the theft count, so a period of about two and half a years?
7 8 9 10 A. 11 Q. 12 13 A. 14 15 Q. 13 14 15 Q. 14 15 Q. 13 14 20 21 22 A. 22 23 Q.	occasions where the engineer was replacing hardware, they may have failed to take necessary steps to synchronise the message store? I didn't consider that. That would be problematic, if they failed to do that, wouldn't it? But it would also probably have been very obvious at the time. On the data that you didn't have and therefore couldn't analyse? Yes. So, in answer to the question, what did you do to respond to the suggestion that hardware faults at branch were persistent and affected balancing, is that you relied on reading Mr Dunks' statement? Yes. Thank you. Can I turn the investigations into	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. A.	sign, even the slightest symptom of any computer fault? The indictment period, did you understand, was the 29 June 2005 until 14 January 2008, in relation to the theft count, so a period of about two and half a years?

(32) Pages 125 - 128

1	Q.	Did you clock, did you realise, I've got data for only
2		about half the relevant period for the theft?
3	Α.	That was the data I was given and that was the data
4		I was asked to look at.
5	Q.	But did you at the time realise
6	Α.	And I think I made that clear that that was the period
7		I had I thought it was well known that that was the
8		data that I had to look at and, therefore, the only data
9		I could comment on.
10	Q.	Did it strike you as incomplete, in the sense that it
11		didn't match the period of the theft charge?
12	Α.	That was what I'd been asked to look at.
13	Q.	You say here:
14		" I've been doing very sort of high level rough
15		analysis on the stuff to do any detailed
16		investigation, you need to have some sort of idea about
17		a fault happened at that particular time."
18		So do I understand this to be what you were saying:
19		although you say that there would be evidence of faults
20		in the data, you did not conduct any analysis to try and
21		locate such faults in the data because you didn't have
22		a data range to narrow down the search.
23	Α.	The data that I had was it wasn't really possible to
24		do that because I was trying to correlate the cash
25		movements against the cash declarations, and they just 129
		120
1		might have been happening at a particular time?
2		"Answer: Other than the Callendar Square problem,
3		no."
4		Would you agree that that approach really throws the
5		burden onto the defence for coming up with suggestions
6		as to what to look for, and then only then would you be
7		able to search through the 500,000 transactions.
8	Α.	Yes, and I think I'd indicated that in some of the
9		emails that I exchanged with Jarnail Singh earlier in
10	~	the year.
11	Q.	"We need the defendant to identify where the particular
12		fault is before I can look for the particular fault";
13		that's what you were saying?
14 15	A.	I suppose so, yes.
15 16	Q.	But Fujitsu did keep PinICLs, PEAKs and KELs, didn't it?
	A.	Yes.
17	Q.	Could you not have used those in the indictment period
18 19		for two-and-a-half years to find out what other known faults were in play during the relevant time?
20	A.	I think I did look for whether there were PinICLs
20 21	А.	associated with that branch.
21	0	
22	Q.	Yes, not PinICLs associated with that branch, PinICLs or PEAKs or KELs that identified known faults that were in
23 24		
24 25		play, which were in evidence, during the time that the theft was alleged to have taken place? You could use
20		
		131

1		didn't correlate and, therefore, I wasn't able to track
2		down where losses had actually happened to investigate
3		in detail.
4	Q.	So the answer
5	Α.	And that's really what I was trying to say there.
6	Q.	Sorry?
7	Α.	And that's what I was trying to say with that answer
8		there.
9	Q.	So the "No, but", the "but" is very important, because
10		you're saying, "I actually haven't been able to do any
11		real investigation because I need to know when the fault
12		is supposed to have occurred, so that I can use that
13		information to narrow of the search down and look in
14		this half a million transactions"?
15	Α.	Yes, yes.
16	Q.	Had Fujitsu developed any sort of knowledge bank about
17		the kind of events or patterns that you could do
18		searches on in order to identify evidence of known
19		faults?
20	Α.	l don't know.
21	Q.	None to your knowledge?
22	Α.	I can't think of any at the moment.
23	Q.	The questioning continues:
24		"Have you been given any information at all from
25		Professor Mol achien as to any particular fault that

- 25 Professor McLachlan as to any particular fault that 130
- 1 that as a narrowing tool, couldn't you? I realise that now. I didn't think of it at the time. 2 Δ. 3 Q. Isn't that a straightforward or an obvious approach, 4 rather than saying, "It's up to you, defendant, to tell 5 me where to look in my system for faults, I've got 6 a Knowledge Base which identifies faults, I'll use that 7 to look in the data"? 8 A. When you put it that way, I realise that now, but that 9 was not the way I was thinking at the time. Q. That would have given you, even on the limited 13 months 10 that you were given, a clue or ideas as to what to look 11 12 for in the ARQ data, wouldn't it? A. I understand that now. 13 14 **Q.** But what you were saying is that there was too much data 15 to do any detailed investigation, the only thing that's 16 been suggested is Callendar Square, which they knew 17 about because of Lee Castleton's case, "That's the only 18 thing that I've got to go on"? A. That's what I am saying, yes. 19 20 Q. Those things, the PinICLs, PEAKs and KELs, they would 21 have given you an idea what to look for in the ARQ data 22 but the defence couldn't do that, could they, because 23 they didn't have the PinICLs, PEAKs or KELs, did they? 24 A. That's true.
- 25 Q. Do you know that Professor McLachlan repeatedly asked 132

1		for disclosure of what he called Fujitsu's records of	1
2		known faults?	2
3	Α.	I'm aware that he asked for that, yes.	3
4	Q.	That had been repeatedly denied him, that request,	4
5	_	hadn't it?	5
6	Α.	Post Office had decided not to meet that respond to	6
7	_	that request.	7
8	Q.	So the very tool, if the burden was going to be thrust	8
9		on to the defence, that might have enabled the defence	9
10		expert to carry out the task that didn't occur to you,	10
11		that was denied them, as well, wasn't it, by the Post	11
12		Office?	12
13	Α.	Yes.	13
14	Q.	Was there any prohibition or nervousness or ban on	14
15		revealing the existence of the Known Error Log in legal	15
16		proceedings, that you're aware of?	16
17	Α.	Not that I'm aware of. I certainly discussed the	17
18	~	existence of it with Professor McLachlan.	18
19	Q.	Is that why he was asking for it, do you think?	19
20	Α.	It could well be. After we had a I think it was	20
21		shortly after a meeting I had with him that he actually	21
22	~	requested that sort of information from Post Office.	22
23	Q.	Did you form a view about the denial of that material to	23
24		him?	24
25	Α.	I didn't think that it would actually help him a lot but 133	25
1		forwards, please, and look at the bottom of the page,	1
2		a call on 20 February 2006 at 10.42. It's opened at	2
3		10.42 and closed two minutes later. If you look at the	3
4		text, the caller, on the left, is Mrs Misra	4
5	Α.	Yes.	5
6	Q.	It says "Mrs Seema" but it's Mrs Misra.	6
7	Α.	Yes.	7
8	Q.	The problem is recorded as:	8
9		"[Postmistress] states that showing £6,000 down from	9
10		balance"	10
11		Yes?	11
12	Α.	I see that, yes.	12
13	Q.	Then text underneath it, "Call closed". So two minutes	13
14		after the call, after Mrs Misra says that the system is	14
15		showing £6,000 down from balance, she's told it's	15
16		an NBSC issue.	16
17	Α.	I see that, yes.	17
18	Q.	Then if we scroll down, please. 10.45, can you see	18
19		that, the next call record?	19
20	Α.	Yes.	20
21	Q.	Mrs Misra again, this one is closed down in three	21
22		minutes:	22
23		"[Postmistress] states that showing £6,000 down from	23
24		balance. Advised [it's an] NBSC issue. [Postmistress]	24
25		stated she was talking to the NBSC and got cut off"	25
		135	

1		I was prepared to sort of if Post Office had come
2		back and said to give that material for him, then it
3		wasn't something that I would have been concerned about.
4	Q.	• •
5		Mr Tatford asked you, at A:
6		" if a computer problem led to a problem with the
7		actual figures on the accounts, would you would that
, 8		problem manifest itself to the staff at the post
9		office?"
10		"Answer: Clearly, if there's a problem in the
11		accounts then and there were losses and things like
12		that showing, I would expect the staff to be complaining
13		to the Helpdesk to investigate what's gone on and that
14		could that might trigger an investigation by
15		ourselves."
16	Α.	That was my understanding of how things were supposed to
17	7.0	work. I now realise that the Post Office Helpdesk
18		wasn't actually very good at passing things on when they
19		should have been.
20	Q.	The trouble with the answer, therefore, is that it
21	ч.	assumed that the Helpdesk handled calls as they should,
22		rather than batting them off?
23	Α.	Yes, that was the assumption I had.
_• 24	Q.	Can we look at some call records, please. At
25		POL00061793. Page 22, please, and if we scroll
		134
1		Then the fuller text in the next box down:
2		"call close I advised [postmistress] I would put
3		her through. [Postmistress] was happy with this."
4		Then scroll down, please and keep going. 3.40,
5		same day, call opened and closed within two minutes.
6		Seema Misra, the call.
7		"[Postmistress] states that her system is showing
8		different values for certain products."
9		Then if we scroll down, just stop there:
10		"Call close by Matthew Fry: [postmistress] states
11		that her system is showing incorrect values.
12		[Postmistress] transferred."
13		Next day, the 21:
14		" last couple of weeks they have had problems
15		with Horizon kit and it is always showing that they are
16		down in money."
17		Carrying on:
18		"Call closed she has been advised by the NBSC,
19 20		advised [postmistress] to follow this"
20		Just stopping there, I'm not going to go through all
21 22		of these, there's a lot of them. Did you access these
22 23		call records as part of your work preparing to give
23 24		evidence in witness statements and then orally in Seema Misra's case?
24 25	Α.	No, I did not.
20	Ω.	136

1	Q.	Did you therefore not correlate any of this information
2		with the data in the limited period of the 13 months
3		that you had?
4	Α.	No, I did not.
5	Q.	I think from your earlier answers, I took that you
6		didn't know that the Helpdesk was perhaps not as
7		effective as it should have been, that people were, for
8		example, continually rerouted to the NBSC?
9	Α.	Yes, well, it was the NBSC, I think, that was
10		responsible to handle that sort of call but I now
11		understand that they didn't do it very well.
12	Q.	Does any of this help or hinder us with assessing
13		Mr Dunks' statement that all calls are of a routine
14		nature and don't fall outside the normal working
15		parameters of the system?
16	Α.	I didn't do that sort of analysis of the calls at the
17		time. I just took his word for what he had actually said
18		as the summary.
19	Q.	Do you think you probably should have looked at it
20	-	before allying yourself with what Mr Dunks was saying?
21	Α.	With hindsight, I can see that, yes.
22	Q.	I think once the trial started and Mr Dunks was
23	ч.	testifying about the calls, you started make some
24		enquiries then, didn't you?
25	Α.	I did indeed. He referred to one call that had been
		137
4		
1	A.	"Home", I think that's supposed to say.
2 3	Q.	" if you want to ring me." Why did the PEAK look interesting?
4	Α.	Because it was one that had been raised to do with
4 5	А.	a discrepancy in the branch that had been investigated
6		by her. So I can't remember now exactly what the PEAK
7		said. I think she said she did a full investigation and
8		couldn't find any problem but I was just wondering if
9	~	she had anything to add to that.
10	Q.	The "you're still in the clear", presumably, do you mean
11		by that that she was keen not to give evidence again?
12	Α.	I think that's what that's referring to, yes.
13	Q.	Therefore, you hadn't been asked to get this officially
14		so there wasn't a prospect of her being dragged into
15		these proceedings?
16	Α.	Correct, yeah.
17	Q.	The defence didn't have access to the PEAKs, did they?
18	Α.	No, they didn't.
19	Q.	So you had a privileged position in relation to
20		Fujitsu's records?
21	Α.	Yes.
22	Q.	Did you think at the time that that may give the Post
23		Office an unfair advantage over the defence?
~ 4		
24 25	Α.	I don't think I thought it through at the time but I understand now why you're asking the question and.

I understand now why you're asking the question and, 139

Q.	examined the data for the branch at a particular time. I think that was sometime in 2006 and I did contact her to ask if she had any more useful information, and I did
Q.	
Q.	to ask if she had any more useful information, and I did
Q.	
Q.	look at the PinICL that was associated with that.
	Let's just look at that briefly, FUJ00153395. So this
	is in the course of the trial.
Α.	Yes.
Q.	You're emailing Anne Chambers on 13 October 2010 at
	3.15:
	"Anne,
	"In court today Andy Dunks was asked about all so
	of Helpdesk calls.
	"One of them looked interesting"
	Then I think that should read "so":
	" [so] I searched PEAK for more info."
Α.	Yes.
Q.	I think that's the PEAK you attached. There's a pdf at
	the top
Α.	l believe so.
Q.	ending in 673:
	"Do you remember anything about it?"
	"NB I've not been asked to get this info officially
	so you're in the clear still!
	"I'm at"
	138
	yes, I accept that that wasn't right.
Q.	That aside, do you think that whatever had piqued your
	interest in the PEAK, you should have discussed it with
	Professor McLachlan or at least shown him the docume
	together with any information that Anne Chambers gave
	you in response to your request to ring her if she
	wants.
Α.	Again, I realise now that that's what I should have done
	but I wasn't aware then that that was something that
	I needed to do. I'd not been asked to look into this at
	all. I just happened to have picked up listening to
	Andy Dunks' evidence that there was this software call
	that had come through and, therefore, I thought that
	I would do a little bit of digging myself into it, and
	no one had asked me to do that, so that's what was
	behind this, to see if it would actually shed any light
	of what had been going on.
Q.	I think when you came to give evidence, you were
	actually asked about Mr Dunks' oral evidence when you
	were giving evidence?
Α.	I can't remember that at the moment, sorry.
Q.	Let's have look. POL00029426, at page 7. If we scroll
	down, please, at H:
	" you are aware, are you, of the witness
	statements of Mr Dunks
	140
	Q. A. Q. A. Q.

9

1		"Answer: Yes, I am."
2		Then this is Mr Tatford:
3		" who provided a rather exhaustive list of all the
4		calls to the helpline. Do any of those calls to the
5		helpline I do not know if you heard his evidence
6		yesterday?
7		"Answer: Yes, I did indeed.
8		"Question: Did any of what you have read or of what
9		you heard yesterday from Mr Dunks, did that cause you
10		any concern as to your view that there is no evidence of
11		any computer fault?
12		"Answer: No, I I've not I haven't got
13		Mr Dunks' experience in examining call logs and things
14		like that but I was quite happy with his comment that
15		the level of calls from the branch were typical for
16		other branches."
17		Do you think, on reflection, that reply obscured
18	•	more than it revealed?
19 20	Α.	I didn't at the time. I understand now that maybe that would have been an opportunity to talk about the
20 21		conversation well, I'm not sure whether I spoke to
22		Anne or not but, certainly when I looked at the PEAK,
23		there was nothing there to show that there was actually
24		a problem at the time and I believe the PEAK showed that
25		she'd done some examination and not found any faults.
		141
1	Q.	Can we look, please, at FUJ00153390, 11 October, which
2		I think is the second day of trial?
3	Α.	The first day, I think.
4	Q.	The first day?
5	Α.	The first day, yeah.
6	Q.	First day of trial at 7.00 at night.
7	Α.	Yes.
8	Q.	You're sending, essentially, is this right, the NT event
9		logs?
10	Α.	Yes.
11	Q.	That's because of his requests or focus on Callendar
12		Square; is that right?
13	Α.	Yes. I think during the trial we'd actually gone
14		through the event logs on my laptop and he'd asked me
15		could I send him a copy, so I did so.
16	Q.	You answered some questions about these logs if we
17		look at those in the trial as you just said,
18		POL00029406, at page 67 at C. This is you being asked
19		questions by Mr Hadrill.
20		Just scroll up a little bit, so we can see the
21		question before. Thank you. So at C:
22 23		"Questions are asked about Callendar Square and, lo
23 24		and behold, you summon up then a third log and it is called an NT log. Yes?
24		

- 24 called an NT log. Yes?
- 25 "Answer: Yes.

143

- So, therefore, I didn't see the need to mention it in 2 that sort of context.
- 3 Q. But the level or the number of calls, whether or not 4 that was typical of other branches, was beside the 5 point, wasn't it?
- 6 A. I thought that what I was saying there was -- I'm not 7 quite sure what you would have expecting me to say there 8 because, as I say, I was doing as I'd done in my witness

 - statement, saying that I thought that Mr Dunks knew
- 10 better how many calls would be typical in a branch such 11 as this.
- 12 Q. Well, you say, you don't know what I would have expected
- 13 you to say -- and I'm not going to put words into your
- 14 mouth -- but something like "I know that hardware faults
- 15 can lead to accounting irregularities, one needs to go
- through the Helpdesk call records very carefully to look 16
- 17 for those hardware irregularities and then cross-compare
- them to the ARQ data, using that as a key to look for 18
- 19 errors. I haven't done that and, in any event, I've
- 20 only got 13 months' of data which is about half the 21 relevant period".
- 22 A. I'd not thought it through in that way but, with
- 23 hindsight, maybe I should have said something like that.
- Q. That would be the complete answer, wouldn't it? 24
- 25 A. Possibly.

1		"Question: Which you had not bothered looking at
2		before?
3		"Answer: I had looked at them before when I was
4		produced my statement on what happened in Callendar
5		Square back in March.
6		"Question: You had never given Professor McLachlan
7		the benefit of looking at them?
8		"Answer: That's true.
9		"Question: You are compiling a
10		"Answer: He hadn't asked me for them.
11		"Question: Sorry?
12		"Answer: He hadn't asked me for them. I had passed
13		on the information from Callendar Square", et cetera.
14	Α.	I think that's just an example of me not understanding
15		that I had a responsibility for doing any disclosure.
16	Q.	Aside from that, is it right to say that neither you nor
17		Professor McLachlan had time in the course of the trial
18		to analyse the data for anything other than the signs of
19		the Callendar Square bug.
20	Α.	I can't remember exactly what we had. I did give him
21		the full NT event logs for the full period that had been
22		provided to me back in February. Back in February, Anne
23		had done an analysis of the NT events and to see
24		whether there were any problems there, and we hadn't
25		seen anything that was startling about from the NT 144

1		events and now I was sharing these logs with Professor	1
2		McLachlan.	2
3	Q.	You said that the pair of you sat in front of your	3
4		laptop in the course of the trial?	4
5	Α.	l believe so, yes.	5
6	Q.	Was that searching for, or analysing the data for, signs	6
7		of the Callendar Square bug?	7
8	Α.	That was the main reason that we were looking at things	8
9	~	then, yes.	9
10	Q.	You and he didn't have time to analyse all of the data	10
11 12	Α.	for any signs of bugs? No, but he was as I say, having given him the things,	11 12
12	А.	then he was free to look for anything he wanted and come	12
13		back to me with specific questions. I don't believe	13
14		that he did so but believe that Mr Hadrill did, as part	14
16		of the dialogue here.	16
17	Q.	Can we go back to page 58, please, just go down to D.	10
18	.	Would you agree this was an important part of your	18
19		evidence, between D and G? It's essentially the core of	19
20		what you were saying.	20
21	Α.	Yes, I think so.	21
22	Q.	The question:	22
23		"[Has] your analysis of just under half	23
24		a million transactions seen any sign, even the	24
25		slightest symptom of any computer fault?	25
		145	
1	Α.	I understand that now. I hadn't at the time.	1
2	A. Q.	The testimony continues by Mr Tatford asking you:	2
2 3		The testimony continues by Mr Tatford asking you: "No. And, in relation to computer problems, you	2 3

Do you accept that a complete answer would have included, "Mrs Misra, I understand, did call the 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23

1		"Answer: No, but then I've been doing very sort of
2		
2		high level rough analysis to do any detailed
4		analysis you'd have to have some sort of idea about
		a fault happened at that particular time."
5		"Question: Have you been given any information
6 7		from Professor McLachlan [about a particular fault]?
		"Answer: Other than [Callendar Square], no."
8 9		Do you agree that a complete answer would have included the following: however, Professor McLachlan
9 10		hasn't been provided with all of the records that are
11		available to me"?
12	Α.	I wasn't aware that I needed to say that and, by then,
13	ς.	he had had the information. But, as I say, I didn't
14		know that he needed I didn't know that he hadn't got
15		it until the Monday.
16	Q.	A complete answer would be, "He has asked for, but has
17	ч.	not been given Fujitsu's records of known errors"?
18	Α.	I didn't know that I needed to say that. I thought he
19	Π.	could have said that himself, if he thought it was
20		important.
21	Q.	"And that it's possible that if he or I or of both of us
22	Ψ.	had examined the records for all known faults operative
23		in the two and a half years of the alleged theft, we
24		would have had a better idea what to look for in the
25		500,000 transactions"?
		146
1		would have heard Mr Dunks saying that but I didn't think

1		might help about this possibility but he's only had it	1
2		since the first day of the trial, I've not myself looked	2
3		at it for any other signs other than the Callendar	3
4		Square bug"?	4
5	Α.	I think I had looked at the events for anything else	5
6	•	that was unusual back in February.	6
7		Okay. What do you mean, "unusual"?	7
8	А.	There are some events that you get sort of on a fairly	8
9 10		regular basis, so I was looking for ones that I could	9 10
10	0	see that would have caused a problem. Overall, were you untroubled by, and happy with, the	10
12	ω.	evidence you'd given at trial?	12
13	Α.		12
14		wasn't as good as it should have been but, at the time,	13
15		I felt happy with it.	15
16	Q.	Can we look at FUJ00225196. Look at the second email on	16
17		the page from you on 22 October, subject "Court told	17
18		postmistress had 'her fingers in the till'":	18
19		"Penny, I did a Google search last night and found	19
20		this from last week."	20
21		It's an article from Surrey Online, essentially	21
22		getsurrey.co.uk.	22
23	Α.	The reason I was interested in that was because it	23
24		referred to me as "Professor Jenkins", rather than	24
25		Mr Jenkins, and that was the reason I was expressing	25
		149	
1	Α.	This was about a couple of years later, yes.	1
2	Q.	Yes, in October 2012?	2
3		Yes.	3
4	Q.		4
5		Mr Singh to you, copied to others.	5
6		"Dear Mr Jenkins	6
7		"Welcome from your annual leave"	7
8		I'm going to read this, as I usually do, exactly how	8
9		it's written:	9
10		" and your assistance advice in the past	10
11		prosecution cases and I understand you are assisting my	11
12		colleagues at present. I need your urgent assist judge	12
13		has this morning ordered the prosecution to have the	13
14		following report ready to be served within Seven days.	14
15		On advise Post Office Limited have appointed one of	15
16		their investigators, Helen Rose as Disclosure Officer	16
17		dealing with Horizon challenges. She has prepared	17
18		a document/spreadsheet detailing all such cases, past	18
19		and present, approximately 20 in total, although none	19
20		thus far successfully argued in court. Post Office	20
21		Limited have been advised to obtain, an experts report	21
22		from Fujitsu UK, the Horizon system developers,	22
23		confirming the system is robust. Post Office Limited	23
24 25		maintain the system is robust, but in light of adverse	24
		publicity from logal viewpoint is that defense should	05
25		publicity, from legal viewpoint is that defence should 151	25

	acquired this title of Professor in the article, as
	obviously a typo.
Q.	You say:
	"They don't seem to have updated it yet to add in
	the guilty verdict.
	"Looks like I've acquired a new title!"
A.	Which is what that last comment was about.
Q.	Then if we scroll up:
	"Nice one Gareth. Looks like you now have
	a sideline of resident expert witness in future Post
	Office fraud cases."
	Which was indeed the case, wasn't it? You did have
	a sideline as resident expert witness?
A.	l did in a few cases.
Q.	Did you subsequently pass this on to anyone else, that
	you had
A.	I probably sent it home, so that my wife could see the
	article and, again, the reason for that was to do with
	the fact that I'd been referred to as a professor.
Q.	Thank you. That can come down.
	Following your evidence in the Seema Misra case and
	the guilty verdict, you were asked to provide a series
	of generic witness statements, weren't you?
	150
	be given experturity to test the system, should they
	be given opportunity to test the system, should they still wish to do so, on consideration of our report.
	"You will need to consider Disclosure Officers
	document/spreadsheet (see attachments) and need to
	address in your report the followed issues:
	"1) A description of the Horizon system (in laymen's
	terms so that a jury can understand what it is and what
	it does).
	"2) A declaration that it is yet to be attacked
	successfully.
	"3) A summary of the basic attacks made on the system concentrating on any expert reports served in
	past cases. If there are none then state that no expert has yet been found by any defence team civil or criminal
	5 5 5
	to attack the system (at the moment there seems to be little more than [gripping] by defendants that the
	system must be at fault without saying how).
	"4) Plainly, like all accounting systems, there is
	room for human error (keying in wrong amounts etc) are
	you able to state that innocent human error is unlikely
	to produce the types of discrepancies of many thousands
	of pounds over many months.
	"If you require any further information or wish to
	discuss please do not hesitate to contact me."

an interest in there. It was nothing to do with the actual trial, as such, it was that I had magically

As far as you're concerned, is this essentially the 152

2 3 4 5 6		Yes, it is. You'll see from the top of the page that this was sent	2		" here are the two existing reports I mentions

9	Α.		9		addressing your specific points below in the next few
10	Q.	The request was framed in a way that the generic witness	10		days.
11		statement, as perhaps is obvious from its title, was not	11		"Hopefully that will cover off your requirements."
12		going to address the specifics of any particular case?	12		So you were sending back the Horizon data integrity
13		Yes.	13		reports about Legacy Horizon and Horizon Online that we
14	Q.		14		looked at yesterday?
15		the instructions that you were being given here?	15	Α.	Yes.
16	Α.		16	Q.	, , , , , , , , , , , , , , , , , , , ,
17		describe it: it was a typical garbled email from Jarnail	17		question, essentially, or part of the answer?
18	_	Singh.	18	Α.	
19	Q.	Given that it was a "typical garbled email" from Jarnail	19		question, and they would give him something to be going
20		Singh, didn't that cause you concern?	20		on with whilst I tried to frame a report addressing the
21		I tried to make the best sense of it that I could.	21	•	specifics that he raised.
22	Q.	Can we look at your reply, please. POL00096983.	22	Q.	
23		A little later that day can we just go back, please,	23		paragraph 541, at page 186. You say:
24		to POL0006978. Yes, that was at 11.04 in the morning.	24		"I provided my two data integrity reports to
25		Let's go back to POL00096983, your reply at 2.10, 153	25		Mr Singh because I thought they were a good starting 154
4			4	•	
1		point for the purposes of grabbing Legacy Horizon and	1	Q.	
2		Horizon Online and the mechanics of their respective	2		didn't you write back and say, "No, I can't just provide
3		audit trails. As I have explained in my second	3		a generic witness statement that's to be used in support
4 5		statement to this Inquiry, these reports were not a survey of bugs or other issues which had affected	4 5		of a prosecution. I can only look at branch-specific
6			5 6		data to examine whether there's evidence of a specific problem at a specific branch"?
7	Α.	Horizon and had not been prepared for that purpose." Yes.	0 7	٨	I think I had sought guidance from my colleagues within
8	Q.	Mr Singh had asked you to prepare a witness statement,	8	А.	Fujitsu as to how I should address Mr Singh's request.
9	ω.	essentially, that said, amongst other things, that the	9	Q.	
10		Horizon system was robust, hadn't he?	10	ω.	branch, it's not about the system in general"?
11	۵	I can't remember exactly what he was saying but what	10	Α.	
12		I thought I thought this was a good start in terms of	12	Q.	
13		trying to address the robustness of Horizon, yes.	12	ч.	give you a genericised statement. You need to be
14	0	If we just go back, it might not have been a witness	10		looking at individual data which is branch-specific"?
15	ч.	statement. I just want to check that.	15	Α.	
16	Α.		16		providing a high level overview of how Horizon was
17	Q.	A report?	10		working in general.
18	Q. A.	There was a report I produced, which later got turned	18	MR	R BEER: Thank you. If we can stop there and take the
19	7.0	into a witness statement.	19		afternoon break until 3.15, please. Thank you very
	Q.		20		much.
20		amongst other things, to confirm that the system was	21	(2.5	58 pm)
20 21		robust.	22	,	(A short break)
21		TODUSI.			· · · · · · · · · · · · · · · · · · ·
	Α.	So what I so the next day I think I did produce	23	(3.1	15 pm)
21 22	Α.				15 pm) R WYN WILLIAMS: Have you had a sufficient break
21 22 23	Α.	So what I so the next day I think I did produce	23		

(39) Pages 153 - 156

1	Α.	I think so. I'd like to just get the day over with,	1
2		please.	2
3	SIF	RWYN WILLIAMS: Fine.	3
4	MR	BEER: I'm aiming to finish by 4.00.	4
5		Can we look at your third witness statement, please,	5
6		at page 184. 534, you're referring to Mr Singh's email,	6
7		the one that we looked at before the break.	7
8	Α.	Yes.	8
9	Q.	You say:	9
10		"[It] didn't mention any specific prosecution, name	10
11		any [subpostmaster] defendant or provide any information	11
12		about any prosecution that my statement was required	12
13		for. I understood that what [Post Office] wanted was	13
14		a generic statement that did not go into the specifics	14
15		of any case and that responded to the four issues	15
16	_	Mr Singh had set out in his email."	16
17	Α.	Yes.	17
18	Q.	Then you say at 535:	18
19		"Mr Singh's email described and attached two	19
20		documents"	20
21		Then you give the references, the second which was	21
22		an Excel spreadsheet list interesting number of previous	22
23		prosecutions, that's the one ending in 468	23
24	A.	Yes.	24
25	Q.	sorry, ending in 089. 157	25
1		that, so I took it on face value and just didn't	1
2		consider it in that much detail.	2
3	Q.	Okay, and if we go down the page to 537, you say:	3
4		"Whilst I understood that Mr Singh wanted a generic	4
5		report that did not address the specifics of any given	5
6		case and that responded to the four issues he had	6
7		identified, I was concerned that I did not know exactly	7
8		I how to approach this task."	8
9		I think that's a reference to that you made	9
10		earlier in your evidence before the break	10
11	Α.	Yes.	11
12	Q.	when you said, "Yes, and I went off to the Fujitsu	12
13		lawyers"?	13
14	Α.	Yes, actually looking at this, it wasn't the lawyers at	14
15	~	this point but it was certainly	15
16	Q.	Managers?	16
17	A.	managers and things, yes.	17
18	Q.	You say:	18
19 20		"That is why at 11.52 I emailed Peter Thompson (Head	19
20 21		of Customer Services), Howard Pritchard (Head of	20
21 22		Security) and Ian Turner (Development Manager and my	21 22
22		boss) copying Pete Newsome and James Davidson, saying 'help please' and seeking 'urgent guidance'."	22
23 24		Can we look at that please, FUJ00156645. Thank you.	23
24 25			24
20		This is the email you're referring to.	25

רו ר	[Inq	uiry 27 June 202
1	Α.	Yes.
2	Q.	"[648] was a Word document describing five of those
3		prosecutions. These five prosecutions [including] two
4		which I knew about (Rinkfield and West Byfleet).
5		I didn't know about [any of] the others at the time."
6		I'm not going to take you to the underlying
7		documents, to the Excel, but the spreadsheet had 25 or
8		so branches listed in it where there had been
9		a prosecution and Horizon issues had been raised. On
0		that list, Hughie Thomas' branch was not listed.
1	Α.	l can't remember. I'm sorry.
2	Q.	Would you have gone through that list
3	Α.	I would have skimmed through looking for ones that
4		I recognised and I think I recognised about three or
5		four of them, something like that. I think I listed
6		them in the first draft of my report, the ones that
7		I did recognise.
8	Q.	So you didn't see that the list was incomplete because
9		it didn't list Hughie Thomas' branch in Wales?
20	Α.	I took it at face value.
21	Q.	I see. Therefore, there was nothing triggered in you
22		that this list that the Post Office are providing me
23		with doesn't provide a complete picture of all
24		prosecutions in which Horizon integrity had been raised?
25	Α.	No, I it was presented to me as a list of like
		158
1	Α.	Yes.
2	Q.	So Jarnail Singh sent the email with the four requests
3		in it, and you say:
4		"Help please.
5		"I've looked through the attachments on Jarnail's
6		email and it isn't at all clear exactly what he wants.
7		I suspect he wants a further report explaining why
8		Horizon integrity is okay. I had hoped that somebody
9		would have sent him the report I produced for Dave
0		Smith 3 years ago while I was on leave.
1		"However before I contact Jarnail I need some
2		guidance as to how this fits into my priorities. Should
3		I drop everything else and concentrate on [keeping]
4		Jarnail happy (one extreme) or should I wait for"
5		Is that a change proposal?
6	Α.	Yes, because I could see that this could involve quite a
7		bit of my work and, therefore, it needed to be paid for
8		by Post Office.
9	Q.	A change proposal, ie a formal mechanism raising this

- 9 Q. A change proposal, ie a formal mechanism raising this work?
 1 A. Yes.
- Q. "... to be raised and processed before I start (the
 other extreme) or more likely, some in-between course.
 "As a matter of courtesy, I would like to get some
 kind of response to Jarnail today at least indicating
 160

(40) Pages 157 - 160

The Post Office Horizon IT Inquiry

1		what we (I) propose to do.
2		"I'd appreciate some urgent guidance. Until I get
3		some I shall do nothing further on this other than send
4		a holding email to Jarnail around 5.00 if I've heard
5		nothing by then."
6		So your concern appears to be to secure management
7		sign-off as to where this sits within your day-to-day
8		priority
9	Α.	Yes.
10	Q.	rather than concern with complying with the substance
11		of the request that was made to you?
12	Α.	At that stage it was really a case of, yes, is there
13		something I should be doing urgently or not, or should
14		l be doing at all, even.
15	Q.	You don't question in this, where you're seeking
16		guidance, the appropriateness of the requests that are
17		being made to you?
18	Α.	I'd not thought of that but, clearly, it was open for my
19		management to say that it was inappropriate.
20	Q.	Does that reflect the fact that you didn't see the task
21		as fundamentally inappropriate, namely providing
22		a generic witness statement that wasn't branch-specific,
23		and might be deployed without any reference to
24		an analysis of underlying data?
25	Α.	I've now realised that was totally inappropriate but
		161
1		couple of days but I can't remember the exact details of
2		that.
3	Q.	Can we go forward in your witness statement, please, to
0		

0	α.	Can we go forward in your withess statement, please, to
4		page 187. Third witness statement, page 187, and
5		paragraph 545. You say:
6		"I understand that the question is being asked in
7		this Inquiry of why I didn't, in my draft report, refer
8		to bugs, errors [and] defects which had affected
9		Horizon. Quite simply, I didn't think [Post Office]
10		wanted a report which did anything apart from addressing
11		the four issues Mr Singh had asked me to address. In
12		terms of Mr Singh's general reference to wanting
13		a report 'confirming the system is robust', my draft
14		report referred to the components of Horizon that
15		ensured that the writing and storage of data had
16		integrity. My belief was that if and when there were
17		problems in the system, that would be detectable and
18		leave traces and we would pick those up in any specific
19		case. My view (and I think this was the common
20		understanding in Fujitsu) was that there would be
21		problems (there always are) but they were spottable and
22		there were mechanisms to spot and fix them, and all of
23		these components made the overall system robust."
24		If that was your state of mind, if that was your
25		appreciation, did you take any steps to check that all 163

- I didn't at the time. 1
- 2 Q. That's why we don't see you raising that --
- 3 Α. Yeah.

4

11

- **Q.** -- in this email; is that right?
- Yes. I was assuming that he knew what he was doing and 5 Α. 6 was asking me to do something that was appropriate.
 - Q. We saw, I think, at 3.10 that day, you sent over the two
- 7 Horizon integrity reports? 8
- 9 A. Yes.
- 10 Q. Does that mean that that was essentially the holding
- response that you are referring to in the last paragraph here? 12
- 13 Α. It could be. I can't remember the consequences of what 14 happened at that time but that was clearly a sort of 15 holding response.
- 16 Q. What assistance, if any, did your managers provide you?
- 17 A. I can't remember. I may have had a conversation with
- one of them or something in the meantime to agree that 18
- 19 that was something that should be done. I just can't
- 20 remember the details.
- 21 **Q.** What about more generally, the plea for help that you 22 were making in this? I don't think we've got a --
- 23 A. I don't think that I've seen an email responding to that 24 but I think, later on, some of the Fujitsu lawyers got
- 25 involved in the report that I was drafting over the next 162
- 1 bugs were being picked up, handled and fixed? 2 Α. Not at that particular time, no, but I thought that the 3 processes that we had in place were doing that sort of
- 4 thing and I still believe that they did.
- 5 Q. You don't reply to Mr Singh by saying, "Look, the system 6 plainly has bugs but we hope that the system we have in 7
- place works. It doesn't work 100 per cent of the time,
- 8 or at least I can't say it does. I can't say anything more than that, ie that's how the system is designed to 9
- work. I need to check underlying raw data to see 10
- 11 whether or not there is any evidence of a bug, known or 12 unknown, impacting on the data"?
- 13 Α. I didn't think I needed to make a response along those
- 14 lines, though I clearly understand with hindsight that 15 perhaps I should have done.
- Q. If we go forward to page 548, please, which is over the 16 17 page, you say:
- 18 "It appears that there was legal oversight of the
- provision of my report at Fujitsu. No one from [Post 19
- 20 Office] or Fujitsu suggested that my report needed to
- 21 detail any bugs, errors or defects which had arisen in
- 22 Legacy Horizon or Horizon Online. David Jones ..."
- 23 That's the lawyer?
- 24 Α. Yes.
- 25 Q. "... had been involved in Mrs Misra's case, in which he 164

1		had passed on to [Post Office] my raising the Craigpark
2		issue (which lawyers in Fujitsu and [Post Office] knew
3		about anyway). The Callendar Square bug that featured
4		in Mr Castleton's case and Mrs Misra's case. Mr Singh
5		was well aware that my approach in Mrs Misra's case was
6		that the underlying data needed to be considered for any
7		evidence of a system issue at a particular branch.
8		I now know that [Post Office's] Criminal Law Team were
9		aware of the Receipts and Payments Mismatch bug.
10		Plainly, there was a far greater exchange of information
11		between Fujitsu and [Post Office] about the problems
12		that arose from time to time in Horizon than this. But
13		even in terms of just those individuals dealing with
14		this request for a report, there was clearly knowledge
15		within [Post Office] of a number of Horizon-related
16		problems. No one suggested that these should be
17		included in the report that [Post Office] had asked me
18		to produce."
19		You say, "No one suggested this should be included
20		in the report"?
21	Α.	Yes.
22	Q.	Forgive me whilst I take a lozenge.
23		WYN WILLIAMS: Yes.
24	MR	BEER: This report was going to form the basis of
25		a witness statement that you were in due course to sign? 165
1 2		and, therefore, I think there were a number of opportunities where others who were more knowledgeable
2		opportunities where others who were more knowledgeable

One of those revisions was that somebody had inserted the words "I understand that my role is to assist the court" in the opening paragraph of the witness statement? Correct. Those words weren't in the draft report that you had submitted originally back on 2 October? Correct. Do you know who inserted them? I think I've recently understood that it was one of the lawyers in Cartwright King but I'm not 100 per cent certain of that. Did you ask a question about why somebody had written something into your witness statement that said, "I understand my role is to assist the court"?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Q. Q.	opportunities where others who were more knowledgeable of these things than me to actually suggest that I added further things in to there, and they didn't suggest that to me. Thank you. Now, I think it's right that you prepared a draft report on 2 October 2012, and then a witness statement on 5 October 2012, and between those two events there had been some revisions. One of those revisions was that somebody had inserted the words "I understand that my role is to assist the court" in the opening paragraph of the witness statement? Correct. Those words weren't in the draft report that you had submitted originally back on 2 October? Correct. Do you know who inserted them? I think I've recently understood that it was one of the lawyers in Cartwright King but I'm not 100 per cent certain of that. Did you ask a question about why somebody had written something into your witness statement that said,

- 1 **A.** I don't think I knew that at this time.
- 2 $\,$ Q. By the time that you signed the witness statement, you
 - knew that the report that you drafted formed the basis
- 4 of that witness statement?
- 5 A. Yes.

3

- 6 Q. That witness statement was going to be backed by7 a statement of truth?
- 8 A. And I believed that the report, as it was written, was
 9 true.
- 10 Q. Did you not know that the picture was more complex than11 was presented in the final draft of your 5 October
- 12 generic statement?
- 13 A. I'm not sure what you mean by "more complex".
- 14 Q. Well, for example, you didn't include a caveat linkingyour limited information on any individual case, or
- 16 saying that Horizon was not fault free?
- 17 A. I accept that I did not include those caveats. I didn't18 think I needed to, at the time.
- 19 **Q.** This tends to suggest, this paragraph, that you thought
- 20 perhaps that it was the responsibility of others to tell
- 21 you what qualifications you needed to include in your
- 22 report and then witness statement. Is that what you
- 23 were intending to say here?
- 24 A. I think I would -- I was seeking guidance. I didn't
- 25 receive any guidance to do other than that which I did 166
- was just something that needed to be included in it as
 a legal document.
 Q. You, I think, had had some concerns about both Post
 Office's and Fujitsu's management of the prosecution
 - cases and your requirement to give input into them?
- 6 A. I'm not quite sure --

5

- 7 Q. Taking a step back, by October 2012, you said that their
 8 management of the case was chaotic, the Post Office.
- 9 A. And certainly the subsequent events over the next few
- months with this use of the generic statements was evenmore chaotic, yes.
- 12 Q. By this time, did that concern about their management of13 the cases trigger anything in you in thinking why is
- 14 somebody adding "I understand my role is to assist the 15 court"?
- 16 A. No, it didn't. I just assumed everyone -- that others
- 17 knew what they were doing.
- 18 Q. Did you ask yourself: are there any legal reasons forincluding this?
- A. I assumed that the reason it had been added in was it
 needed to be done and I couldn't see any harm in it
 being included in there.
- 23 **Q.** If we can go back to your witness statement, please,
- 24 page 194, paragraph 571. You're dealing with the last
- 25 paragraph of your signed witness statement of 5 October 168

1		2012, the generic witness statement, and you say:
2		"The concluding paragraph of my witness statement
3		addressed the fourth and final issue."
4		That's the fourth and final issue in Jarnail Singh's
5		email of 1 October?
6	Α.	Yes.
7	Q.	"To recap, Mr Singh had asked me to confirm that
8		innocent human error was unlikely to produce large
9		discrepancies over a number of months. The wording
10		l used in response was
11		"In summary I would conclude by saying that I fully
12		believe that Horizon will accurately record all data
13		that is submitted to it and correctly account for it.
14		However, it cannot compensate for any data that is
15		incorrectly input into it as a result of human error,
16		lack of training or fraud (and nor can any other
17		system)'."
18		By this, were you seeking to imply that Horizon was
19		both robust and infallible?
20	A.	I certainly wasn't saying it was infallible.
21 22	Q.	Were you seeking to imply that it was robust?
22	Α.	I was saying that it would accurately record what had happened and I believed that it did.
23 24	Q.	You knew, I think, that the Post Office wanted
24	α.	statement, to use this statement, to rely on it to show
20		169

zon IT	Inq	uiry 27 June 2024
1		that Horizon was robust. That had been what was said in
2		Mr Singh's email to you?
3 4	Α.	I can't remember the exact wording but I'll take your word for it.
5	Q.	What did you think, then, the purpose of your generic
6		statement was? What was it going to be used for?
7	Α.	To show that you could rely on the data that was found
8		in the audit trail from Horizon.
9	Q.	That limited purpose?
10	Α.	And that's what I was trying to say here, yes. And the
11		description in the statement is primarily about
12		describing how the audit trail worked and how it was
13		actually recording the data that had been input into the
14		system and how it was stored into the audit servers and
15		retrieved for ARQ data.
16	Q.	What this doesn't do is look at the other side of the
17		coin and look at instances where Horizon doesn't
18		accurately record all data because of bugs, errors and
19		defects in the system, does it?
20	Α.	I am not aware of bugs, errors and defects that stop it
21		recording things, other than the hardware issues that we
22		spoke about this morning, and that was already being
23		referred to in the integrity paper that was associated
24		with this statement.
25	Q.	Can I turn briefly to look at the use of the generic 170
1	А.	Yes.
2	Q.	Then you reply further up, saying:
3		"[I don't know anything] I'm not aware of this case
4		
5		Yes?
6	Α.	Yeah, yeah.
7	~	The second second second second second

- **Q.** Then she gives that explanation:
- "This is the one you supplied the expert report for", et cetera.
- 9 10 A. Yeah.

8

- ${\bf Q}.~~$ Then further up, please, which is where I want to look 11 12 here, your reply:
- "Thanks for the clarification. I had not understood 13
- 14 that that related to a specific case." 15
- There, the "that that related to a specific case" --
- 16 A. By that I meant the witness statements. Q. -- ie, the generic witness statements? 17
- 18 A. The generic witness statements, yes.
- Q. So she was saying you supplied a witness statement for 19
- the case of Patel and you're saying, "Well, hold on, I'd 20
- 21 understood that my generic witness statement was not in 22
- relation to a specific case".
- 23 A. Correct. That was my understanding.
- 24 Q. Continuing:

25

"... I thought that was a general statement. If 172

1		I am required to go to court for that, I think I need to				
2		have some more background on the specific case and				
3		exactly what is [required]. I appreciate that is not				
4		covered by my statement, but if I need to be an expert				
5		witness, I need to understand what is happening."				
6		By this time, had you realised that you were				
7		performing the function of an expert witness?				
8	Α.	Yes, but without understanding what that really meant.				
9	Q.	What did you understand it to mean?				
10	Α.	Someone who had good knowledge of how Horizon operated.				
11	Q.	This is a slightly different formulation from what we've				
12		seen before, where you are referring to yourself as				
13		an expert witness, isn't it?				
14	Α.	Yes, because well, I knew people had been referring				
15		to me as an expert witness in the past and I now realise				
16		that I just didn't know what an expert witness actually				
17		meant. But I assumed that what I'd the function I'd				
18		performed in the past was what was required of me again.				
19	Q.	By this time, were you aware that an expert witness had				
20		a special status in legal proceedings?				
21	Α.	I was aware that there were some differences but				
22		I didn't understand all the legal niceties involved in				
23		such things.				
24	Q.	What was the extent of your understanding of the "some				
25		differences"?				
		173				
	_					

1 Α. No, I didn't realise there was any link between them.

2 I do now but I didn't then.

3 Q. Did you, when the line was inserted in your witness 4 statement, with you saying to the defence and to the

5 court that you understood that you owed a duty to the

- 6 court, ask anyone, "What duty do I owe to the court?"
- 7 A. I just assumed it meant to tell the truth, which is what 8 I'd do anyway.
- 9 Did you question why somebody was inserting something Q. into your witness statement that was very obvious to you 10 already? 11
- 12 Α. No, I didn't.
- Did you ever ask, "What are these duties that I owe"? 13 Q.
- Α. No, I did not. 14
- Q. If you were completely oblivious to the status and 15
- 16 responsibilities of an expert witness, why were you describing yourself as one? 17
- Because that's what other people were describing me as. 18 Α.
- SIR WYN WILLIAMS: In Mrs Misra's trial, were you present 19 20 throughout the whole time?
- A. No, and, in particular, I was only present during the 21
- 22 first week. I never heard the evidence that she gave,
- 23 and the first time I saw that was about two or three
- 24 years ago, when preparing for --
- SIR WYN WILLIAMS: Yes. So it follows from that that you 25 175

- Well, for example, I think I was aware that I was 1 Α. 2
 - allowed to sit in court and listen to other witnesses,
- which I understand a witness of fact was not allowed to 3 4 do
- Q. From whom did you gain that understanding? 5
 - Because I was asked to do so during Mrs Misra's trial. Α.
- 7 Q. Who explained that the reason you were allowed to sit in 8 was --
- 9 A. I can't remember --
- 10 Q. -- because you were being treated as an expert witness?
- Yes, but that was all I knew that made it any different 11 Α.
- from anyone else, but I didn't really understand the 12
- 13 legal niceties of it, I'm afraid.
- Q. Who explained that to you? 14
- A. I can't remember. Possibly Mr Tatford, I'm not sure; or 15
- 16 it could be Mr Longman. I don't know. I don't think
- 17 Jarnail Singh was actually around very much during the 18 trial.
- 19 Q. By this time, 19 October, did you understand that
- 20 an expert witness had particular responsibilities?
- 21 A. No, I did not.

the court?

25

- 22 Q. Did you draw a link between describing yourself as 23 an expert witness and the line that had been inserted in
- 24 your generic witness statement that you had a duty to
 - 174

1		weren't present when the judge summed up to the jury?					
2	Α.	No, because that was the second week. I'd gone home					
3		after					
4	SIR	WYN WILLIAMS: That's all right.					
5	MR	BEER: You were expressing some concern, in this chain,					
6		that your generic report was being used, was being					
7		deployed, in a specific case?					
8	Α.	Yes.					
9	Q.	Can we turn forward, please, to POL00097137 can we					
10		scroll down, please, and again, please an email from					
11		Rachael Panter to you, under the heading "Horizon expert					
12		report":					
13		"As you may already be aware, your expert report					
14		detailing the reliability of the Horizon system"					
15		First of all, did you understand that you had					
16		produced an expert report?					
17	Α.	I had produced a report which then got converted into					
18		a generic witness statement.					
19	Q.	Did you understand that it was the statement of somebody					
20		who was being treated as an expert witness, or did you					
21		still regard yourself as a witness of fact, or didn't					
22		you make the distinction at all?					
23	Α.	I didn't make the distinction. As I say, the first time					
24		I became aware of the duties of an expert witness was in					
25		about 2020/2021, something like that. 176					

1	Q.	" your expert report detailing the reliability of the			
2		Horizon system"			
3		Did you understand that the document you produced			
4		was a document which detailed the reliability of the			
5		Horizon system?			
6	Α.	I took that as a description of the document I'd			
7		produced, which I thought was more of a description of			
8		the reliability of the audit data that came out of the			
9		Horizon system, but I didn't quibble about the			
10		difference between those two.			
11	Q.	She continues:			
12		" has been served as evidence in a number of Post			
13		Office cases that are at various stages of the court			
14		process, most of which are listed for trial in the early			
15		part of next year.			
16		"It should be noted that most, if not all cases			
17		raising the Horizon system as an issue, have been			
18		unable/not willing to particularise what specific issues			
19		they may have with the system, and how that shapes the			
20		nature of their defence.			
21		"As we already have your detailed report, I would			
22		like to serve it in each case below"			
23		Then six cases are set out:			
24		"Your expert report has already been served in the			
25		Nemesh Patel case. I would like to serve your report in			
		177			
1		being deployed in individual cases when I've seen none			
1 2		being deployed in individual cases when I've seen none of the underlying data in any of those cases"?			
	А.				
2	Α.	of the underlying data in any of those cases"?			
2 3	A.	of the underlying data in any of those cases"? I think it was I sort of took that as read, having			
2 3 4	A.	of the underlying data in any of those cases"? I think it was I sort of took that as read, having already made that point, admittedly to someone else, and			
2 3 4 5	Α.	of the underlying data in any of those cases"? I think it was I sort of took that as read, having already made that point, admittedly to someone else, and the pushback was really, "Well, why don't you just get			
2 3 4 5 6	Α.	of the underlying data in any of those cases"? I think it was I sort of took that as read, having already made that point, admittedly to someone else, and the pushback was really, "Well, why don't you just get on with it? You've already got the signed statement,			
2 3 4 5 6 7	Α.	of the underlying data in any of those cases"? zon lī	「 Inq	uiry 27 June 2024
1		the remaining cases, and have attached a case summary of
2		each case listed above so that you may familiarise
3		yourself with the facts of each case.
4		" Please could you read the case summaries
5		attached and send 5 original signed and dated copies of
6		your report to me as soon as possible."
7		Did you understand what you were being asked to do
8		here?
9	Α.	Not really. I think I was just being asked to actually
10		send her five copies signed copies of the statement
11		and as I responded, saying, "Well, why can't you use
12		the one you've already got?"
13	Q.	This was a month or so after your pushback on the use of
14		the generic statement in a single case
15	Α.	Yes.
16	Q.	saying that you hadn't seen the underlying data.
17	Α.	No.
18	Q.	You're now being told that it's being used in six cases.
19		In fact, it had already been served in one.
20	Α.	I think that one was the one that I was already aware
21		of
22	Q.	The same?
23	Α.	yes.
24	Q.	What was your reaction? Did you not think, "Well, hold
25		on, I'm similarly unhappy that my generic statement is 178
1	А.	Yes.
2	Q.	Is that right?
3	Α.	Yes, that's right. And I then copied the email to the
4		people who should have been involved in sorting out
5		those commercial niceties, and so on.
6	Q.	Penny Thomas and James Davidson?
7	Α.	Yes, and also Jane Owen, who I knew was Penny's
8		counterpart in Post Office.
9	Q.	So at this point, what was your state of mind, "I've
10		produced this expert report, as it's described, which is
11		generic; I've been told that it's been deployed in the
12		Patel case; I've pushed back against that, saying I've
13		seen none of the underlying data; and then I'm told it's
14		being deployed in five other cases, can I provide some
15		more copies of it"?

A. I was even more confused because it implied that it had 16 17 already been employed in an unspecified number of cases, 18 so -- in which case, why was I being asked to sign it

- five times? So I was just generally confused. 19
- 20 Q. What about the more fundamental issue that you'd raised 21 beforehand about the appropriateness of using a generic 22 statement without looking at underlying data?
- 23 A. I thought I'd already made that point and didn't feel 24 the need to repeat it at this point.
- 25 Q. Thank you. That is all I want to ask you about the use 180

1		of the generic statement.
2		Just one last topic before we conclude my questions,
3		and it concerns the decision not to continue to use you
4		as a witness in support of Post Office prosecutions.
5	Α.	Okay.
6	Q.	Can you recall what you were told about that?
7	Α.	I can't remember the exact detail. I've covered it in
8		my witness statement but, basically, it was along the
9		lines that I was been told that I couldn't be used any
10		more for some sort of legal reasons, and it was never
11		explained to me what those reasons were. I now
12		understand, I think, a bit more of the background but
13		l didn't find that out until 2020/2021.
14	Q.	I'm going to come to the email in a moment.
15	Α.	Yeah.
16	Q.	Were there any conversations with you explaining why the
17		Post Office didn't want to use you as an expert witness
18		in legal proceedings against subpostmasters in the
19		future?
20	Α.	Not that I can remember, other than the email which
21		I suspect is the one you're about to show me.
22	Q.	Yes. Can we look, then, at the email, FUJ00156923, and

- 23 look at the email at the bottom of the page. We're
- 24 a year and a bit on now, December 2013.
- 25 A. I think there had been some emails between myself and 181

1		But I think his role at this point was as a commercial
2		manager.
3	Q.	And Pete Newsome?

- 4 Α. He was a liaison between Fujitsu and Post Office, and 5 particularly involved with the prosecution side of 6 things.
- 7 Q. "... met with Post Office lawyers last Friday to discuss 8 the proposal Post Office have come forward with for
- 9 an Independent External Expert review of the integrity of the Horizon system. In essence, the problem that
- 10 11 Post Office have is that they are being given legal
- 12 advice that the 'rules of evidence' mean that
- 13 submissions which in the past have sufficed to support
- 14 prosecutions (namely the input from Gareth Jenkins),
- 15 cannot be used in future prosecutions. They are
- 16 therefore seeking the view of an external expert who can 17 warrant that the data they are basing prosecutions upon
- 18 has integrity. 19 "In the meeting, we were successful in moving the
- 20 discussion away from a full 'system' review (which would
- 21 not achieve their aims and is unworkable in practice) to
- 22
- focus it on what we are calling the 'Core Audit 23
- Process'. This scope is aligned to the audit we were 24 intending to do in 2012 and for which we had already
- 25 agreed a terms of reference with KPMG."

183

- 1 Rachael Panter over the intervening months saying,
- 2 "Where are we in terms of are there any more cases
- 3 I need to worry about, and diary management?" And I'd
- effectively been fobbed off on those. 4
- Q. Exactly so --5 6 A. But there was nothing to say, "We can't use you 7 because"; it was just a case of "nothing for you to do". Q. I haven't gone to those because they don't say anything 8 of substance and whether or not you're to be used and, 9 10 if not, why not. A. Yeah, yeah. 11 Q. 3 December 2013, James Davidson to a wide group of 12 people, including you --13 14 A. Yes Q. -- with the subject "Horizon Integrity Challenges": 15 16 "Folks, 17 "Mike, Pete and myself ..." 18 Just decoding who that is. 19 A. I assume that is Michael Harvey. 20 Q. And Pete Newsome? 21 A. Pete Newsome, I would think, yes, as opposed to Peter 22 Thompson. 23 Q. Remind us, Michael Harvey? 24 He was a lawyer. Well, I think he was a commercial Α. 25 manager but I believe he was also a qualified lawyer. 182 1 That was the paper for which you had written some 2 terms of reference? 3 Α. Indeed 4 Q. "The attached slides describe the Core Audit Process and 5 sets out a terms of reference for an audit that is 6 achievable and that we could support. We have made it 7 clear to Post Office that whilst we will cooperate and 8 provide access to our experts (in a controlled way) we reserve the right to challenge any findings of 9 10 an external expert. The support will also be chargeable and a CT ..." 11 12 What's that? Commercial Terms. So it's basically a contract between 13 Α. 14 Fujitsu and the Post Office. 15 "... is being drafted by myself in parallel. All Q. content has been reviewed by Mike, Pete, Gareth." 16 17 Scroll down: 18 "Can you review the terms of reference?" 19 I'm not going to read the rest of it. 20 A. Yes. Q. The first paragraph of that email explains that the 21
 - 22 problem that the Post Office has is that they are being
 - 23 given legal advice that the rules of evidence mean that
- 24 the input from you cannot be used in future
- 25 prosecutions?

184

- 1 A. And I took it at face value as that, and I thought that
- 2 meant okay, I was off the hook and didn't need to get
- 3 involved in any more legal proceedings.
- 4 Q. Were you content with that?
- 5 A. Oh, yes.
- 6 Q. You were happy not to be involved?
- 7 A. Yes, because I preferred to be working on my day job,
- 8 which was designing changes to the system, rather than9 being involved in prosecutions.
- 10 Q. Was that the extent of what you were told as to why you11 were no longer the Post Office's expert witness of
- 12 choice in their prosecutions?
- 13 A. As far as I can remember, yes.
- 14 **Q.** Did they ever tell you about a legal advice that they
- had received which concluded, in broad terms, that youhad broken your duties to the court and had given
- 17 evidence which was unreliable and, therefore, you could
- 18 not be relied on for those reasons?
- 19 **A.** No, I didn't understand any of that until 2020.
- 20 MR BEER: Thank you.

Fujitsu?

25

- 21 Sir, they are the only questions that I ask.
- 22 SIR WYN WILLIAMS: Thank you.
- 23 Just on this, the only persons who communicated with

185

- 24 you in this email, they are your fellow employees of

INDEX

GARETH IDRIS JENKINS (continued)	1	

Questioned by MR BEER (continued)	. 1
-----------------------------------	-----

- 1 A. Well, they're more senior than me --
- 2 SIR WYN WILLIAMS: More senior, but Fujitsu people?

3 A. Yes.

- 4 SIR WYN WILLIAMS: So the explanation to you came from your
- 5 own employers, in effect?
- 6 A. Yes, I'm just checking that. As far as -- yes, all
 7 those people there, I think, were Fujitsu people.
- 8 SIR WYN WILLIAMS: Right. Did you ever have any direct
- 9 reason from Post Office employees as to why you were
- 10 going to not be a prosecution witness any more?
- 11 A. Not that I can recall.
- 12 SIR WYN WILLIAMS: Right. Fine. Thank you.
- 13 MR BEER: Thank you very much indeed, sir. They are the
- 14 questions that I ask. I think we're going to start with
- 15 Core Participants tomorrow at 9.45.
- 16 SIR WYN WILLIAMS: All right. That's it for the day.
- 17 (3.57 pm)
- 18 (The hearing adjourned until 9.45 am the following day)
- 19
- 20
- 21
- 22
- 23 24 25
